Billboard 1951-03-03 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand,

content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile

entertainment issues and trends.

Great Britain and the East; Far East 1914

Plotting the Globe Avraham Ariel 2005-12-30

People use concepts such as time and date to structure their lives on a daily basis. They often measure their travel by marking points arranged along great circles on the globe. Yet most do not understand the origin and history of these terms and the stories of the intrepid adventurers, scientists, and seafarers who shaped our picture of the world today. Ariel transports readers to faraway lands and ancient cultures that span more than 3500 years of exploration.

Phoenicians, Spaniards, Portuguese, British, French, and many others star in an epic that stretches from Lapland to Cape Horn, via Greenwich, Paris, the Andes and the Fortunate Islands. This book is a collection of stories and myths about geography, navigation, and geodesy—the science that deals with the Earth's figure and the interrelationship of selected points on its surface—that reaches far beyond dry

scientific texts to concentrate on the people behind the discoveries. The knowledge and understanding of abstract notions such as the Prime Meridian, the Equator, and the International Date Line is conveyed through emphasis on the human spirit that motivated the pioneer scientists and sailors. It is a tale littered with heroes and villains, battles, tragedies and international intrigue. Readers will learn of a time when nothing was certain—even the shape and size of the earth were the subjects of fierce competition, conflict, and politics.

A Supplement to the Oxford English Dictionary

R. W. Burchfield 1972 These volumes replace the 1933 Supplement to the OED. The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary -- that is, between 1884, when the first fascicle of the letter A was published, and 1928, when the final section of the Dictionary appeared -- together with accessions to the English language in Britain

and abroad from 1928 to the present day. Nearly all the material in the 1933 Supplement has been retained here, though in revised form (Preface).

Crusoe's Island Andrew Lambert 2016-09-13

From an acclaimed naval historian, *Crusoe's Island* charts the curious relationship between the British and an island on the other side of the world: Robinson Crusoe, in the South Pacific. The tiny island assumed a remarkable position in British culture, most famously in Daniel Defoe's novel. Andrew Lambert reveals the truth behind the legend of this place, bringing to life the voices of the visiting sailors, scientists and

artists, as well as the wonders, tragedy and violence that they encountered.

Recent Views on British History Conference on British Studies 1984

World Wildlife Crime Report 2020 United Nations Publications 2021-03-31 The report

presents the latest assessment of global trends in wildlife crime. It includes discussions on illicit rosewood, ivory, rhino horn, pangolin scales, live reptiles, tigers and other big cats, and European eel. The COVID-19 (coronavirus) pandemic has highlighted that wildlife crime is a threat not only to the environment and biodiversity, but also to human health, economic development and security. Zoonotic diseases - those caused by pathogens that spread from animals to humans - represent up to 75% of all emerging infectious diseases. Trafficked wild species and the resulting products offered for human consumption, by definition, escape any hygiene or sanitary control, and therefore pose even greater risks of infection.

The Practice of Diplomacy Keith Hamilton

2013-05-13 In the unstable international conditions of the post Cold War world, the role of diplomacy has taken on increasing importance with the greater complexity of relationships between international power centres. The Practice of Diplomacy tracks the historical development of diplomatic relations and methods from the earliest period up to their current transformations in the late twentieth century, showing how they have changed to encompass new technological advances and the needs of modern international environments. This coherent and accessible text brings the

history of diplomacy fully up to date, exploring altered perspectives and newly emerging practices resulting from United Nations diplomacy and recent political developments in Eastern and central Europe, including the former Yugoslavia.

Building States Eva-Maria Muschik 2022-04-13 Postwar multilateral cooperation is often viewed as an attempt to overcome the limitations of the nation-state system. However, in 1945, when the United Nations was founded, large parts of the world were still under imperial control. Building States investigates how the UN tried to manage the dissolution of European empires in the 1950s

and 1960s—and helped transform the practice of international development and the meaning of state sovereignty in the process. Eva-Maria Muschik argues that the UN played a key role in the global proliferation and reinvention of the nation-state in the postwar era, as newly independent states came to rely on international assistance. Drawing on previously untapped primary sources, she traces how UN personnel—usually in close consultation with Western officials—sought to manage decolonization peacefully through international development assistance. Examining initiatives in Libya, Somaliland, Bolivia, the Congo, and New York, Muschik shows how the UN pioneered a new understanding and practice of state building, presented as a technical challenge for international experts rather than a political process. UN officials increasingly took on public-policy functions, despite the organization’s mandate not to interfere in the domestic affairs of its member states. These initiatives, Muschik

suggests, had lasting effects on international development practice, peacekeeping, and post-conflict territorial administration. Casting new light on how international organizations became major players in the governance of developing countries, *Building States* has significant implications for the histories of decolonization, the Cold War, and international development. New York Magazine 1985-04-22 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Elusive West and the Contest for

Empire, 1713-1763 Paul W. Mapp 2012-12-01

A truly continental history in both its geographic and political scope, *The Elusive West and the Contest for Empire, 1713-1763* investigates eighteenth-century diplomacy involving North America and links geographic ignorance about the American West to Europeans' grand geopolitical designs. Breaking from scholars' traditional focus on the Atlantic world, Paul W. Mapp demonstrates the centrality of hitherto understudied western regions to early American history and shows that a Pacific focus is crucial to understanding the causes, course, and consequences of the Seven Years' War.
