The Unconscious Civilization John Ralston Saul 2005 Governor General's Award Winner Tenth Anniverary Edition, with a new preface Our society, John Ralston Saul argues in his 1995 CBC Massey Lectures, is only superficially based on the individual and democracy. Increasingly it is conformist and corporatist, a society in which legitimacy lies with specialist or interest groups and decisions are made through constant negotiations between these groups. The paradox of our situation is that knowledge has not made us conscious. Instead, we have sought refuge in a world of illusion where language is cut off from reality. Reconnecting language to reality, clarifying what we mean by individualism and democracy, making these realities central to the citizen's life, identifying ideologies in order to control them, these are among the first elements of equilibrium which Saul proposes in these lectures.

Elam and Persia Javier Álvarez-Mon 2011-06-23 The late 7th and 6th centuries B.C. were a period of tremendous upheaval and change in ancient western Asia, marked by the destruction of the Assyrian Empire, the rise and collapse of the Neo-Babylonian state, and the stunning ascent of what was to become the Achaemenid Persian Empire, the largest polity the world had yet seen. Of the major cultural entities involved in these far-reaching events, Elam has long remained the least understood. The essays contained in this book are part of a continuing reassessment of the nature and significance of Elam in the early 1st millennium B.C., with a focus on the relationship between "Elamite" culture of the Neo-Elamite period and the emerging "Persian" culture in

southwestern Iran in the 7th and 6th centuries B.C. The conception of this volume goes back to the 2003 meeting of the American Schools of Oriental Research that took place in Philadelphia, Pennsylvania, where two sessions were dedicated to the rich cultural heritage of ancient Iran. It was also the first time that Iranian archaeology was represented at ASOR since the Iranian Revolution. This volume contains 14 contributions by leading scholars in the discipline, organized into 3 sections: archaeology, texts, and images (art history). The volume is richly illustrated with more than 200 drawings and photographs.

Geary's Guide to the World's Great Aphorists James Geary 2008-12-08 Both an expert and a collector, James Geary has devoted his life to aphorisms-and the last few years to organizing, indexing, and even translating them. The result is Geary's Guide, featuring aphorists like Voltaire, Twain, Shakespeare, Nietzsche, Woody Allen, Muhammad Ali, Emily Dickinson, and Mae West, as well as international practitioners appearing in English for the first time. But it is more than just a conventional anthology. It is also an encyclopedia, containing brief biographies of each author in addition to a selection of his or her aphorisms. The book is a field guide, too, with aphorists organized into eight different "species," such as Comics, Critics & Satirists; Icons & Iconoclasts; and Painters & Poets. The book's two indexes-by author and by subject-make it easily searchable, while its unique organizational structure and Geary's lively biographical entries set it apart from all previous reference works. A perfect follow-up to Geary's New York Times bestseller *The World in a Phrase*, Geary's Guide is eminently suitable for browsing or for sustained reading. A comprehensive guide to our most intimate, idiosyncratic literary form, the book is an indispensable tool for writers and public speakers as well as essential reading for all language lovers.

The 12 Moon Signs in Love Vera Kaikobad 2005-07 Is your relationship a daily compromise or a true success? Are you a romantic Leo Moon person who approaches falling in love with joy and eager anticipation? Or are you an even-tempered, hard-working Virgo Moon person who ends up relegating passion to the very bottom of your to-do list? Perhaps you're a loving and sensitive Cancer Moon person who likes to mother their lover. Or maybe you're a harmony-oriented, emotionally flexible Libra Moon person who is searching for that ideal spouse? Vera Kaikobad's *The 12 Moon Signs in Love: A Lover's Guide To Understanding Your Partner* helps partners understand each other's deep, emotional and private side through the careful study of personal Astrological Moon signs. Every person's individual Moon sign is an uncannily accurate guide to how they respond to love, adjust to intimacy and express their romantic persona. Our Sun signs signify what we do, while our Moon signs show us how we love. Achieving physical compatibility is a no-brainer, but achieving that oh-so-delicate level of daily emotional compatibility can mean the difference between an average relationship and a superlatively successful one. Is your lover touchy-feely? Or do they love with their mind and intellect? Some Moon signs revel in closeness and feel empowered by it. While others require space and distance through which to evaluate the meaning or usefulness of intimacy in their lives. Each Moon sign speaks its own special, emotional language. And for those of you who are willing to go that extra mile to learn those intricate little details to make your love stronger over the long run, this book may hold some important keys for you to discover.

The 12 Moon Signs in Love: A Lover's Guide To Understanding Your Partner: 1). Contains comprehensive descriptions of each of the 12 Moon signs and discusses their individual romantic nature. 2). Contains 10 specific traits that the male and female of each Moon sign looks for in a love relationship. 3). Contains a list of Sun and Moon signs that are the most compatible for each individual Moon sign. 4). Contains a list of famous celebrities who share each Moon sign with the reader. 5). Allows the reader to find out their personal Moon sign or that of their lover for FREE by logging onto www.astrologycompatibilityreports.com and sending their birth data to the author, who will then email them their real Moon sign within seconds. 6). It contains 144 detailed romantic Moon sign combinations for each Moon sign. 7). Contains a Moon sign Gift Guide for each Moon sign. This book is of great help to anyone who: Has just begun an exciting new love relationship and wants to know how to connect to the real, emotional persona behind their lover. Has just gotten engaged or married and is about to begin a life together with their partner, and would like to know how to appeal to their future spouse by getting the "inside scoop" on their emotion-based Moon sign nature. Has been single for sometime and would like to know the emotional temperament of potential future lovers and life-partners by matching up their own Moon sign with theirs. Vera Kaikobad specializes in Compatibility Astrology and Relationship Numerology. Based in Arizona and Colorado, she has spent a more than a decade helping lovers gain clearer insights into their relationships. In *The 12 Moon Signs in Love* she unravels the mysteries of the 12 romantic Moon signs and their individual approach to love and intimacy, by formulating 144 in-depth, astrological matches that guide lovers to use the secrets of Moon sign astrology to quickly gain guidance about their relationships. Vera holds an Arts degree from Thomas Edison State College in New Jersey, is a published poet, and a licensed medical acupuncturist. Fluent in five languages, Vera has traveled the globe and is an amateur Civil War historian with an interest in the life of Abraham Lincoln. She is currently working on her next book on Numerology.

Numerology Hans Decoz 2001-01-01 For lovers of tarot, astrology, and deepening your connection with yourself and others-- a divine roadmap to numerology Ever notice how some numbers seem to follow us throughout the course of our lives? Consider the numbers we choose when buying a lotto ticket--birth dates, anniversaries, ages, and addresses as well as other hopefully lucky numbers. They each have some personal meaning. Through the centuries, numerologists have been studying the significance of numbers and perfecting their art in the belief that numbers strongly influence both our behavior and our fate. They have learned that by understanding the meaning of numbers, we can gain greater insight into ourselves. In *Numerology: Key to Your Inner Self*, world-renowned numerologist Hans Decoz and accomplished writer Tom Monte have teamed together to produce an easy-to-understand guide that introduces the reader to the basic concepts and applications of numerology. Presented here is a technique that relates the major questions of an individual's life -his talents, challenges, career, and personal growth--with the basic numeric facts of his existence--his birth date and name. The book begins with a fascinating explanation of what numerology is and an intriguing look at the philosophy that lies behind it. It then examines how numerology works, focusing on the numeric meanings of personal names, birth dates, and language in general. Included is a step-by-step guide to calculating your own numbers and interpreting them in chart form.

Divine Harmony John Strohmeier 2012-05-01 *Divine Harmony* describes Pythagoras's wanderings in ancient Phoenicia, Egypt, Babylon, and Greece, and explores key Pythagorean ideas as taught at his scholarly community in southern Italy. This fascinating study of the sixth-century Greek scientist and mystic includes illustrations, a map, a new introduction, and an updated bibliography. Drawing on the writings of Pythagoras's disciples, the authors present a lively portrait of a man whose ideas continue to resonate.

The Fragments of Empedocles William Ellery Leonard 2018-09-14 From the PREFACE. THIS translation was made at the suggestion of my friend, Dr. W. R. Newbold, Professor of Greek Philosophy at the University of Pennsylvania, in the hope of interesting here and there a student of thought or a lover of poetry. The introduction and notes are intended merely to illustrate the text: they touch only incidentally on the doxographical material and give thus by no means a complete account of all it is possible to know about Empedocles's philosophy. My indebtedness to the critics is frequently attested in the references, but I have in all points tried to exercise an independent judgment. Most citations from works not accessible in English are given in translation.

Logic and Its Applications Sujata Ghosh 2016-12-25 This book collects the refereed proceedings of the 7th Indian Conference on Logic and Its Applications, ICLA 2017, held in Mumbai, India, in January 2017. The volume contains 13 full revised papers along with 4 invited talks presented at the conference. The aim of this conference series is to bring together researchers from a wide variety of fields in which formal logic plays a significant role. Areas of interest include mathematical and philosophical logic, computer science logic, foundations and philosophy of mathematics and the sciences, use of formal logic in areas of theoretical computer science and artificial intelligence, logic and linguistics, and the relationship between logic and other branches of

knowledge. Of special interest are studies in systems of logic in the Indian tradition, and historical research on logic.

The Baha'is of Iran Dominic Parviz Brookshaw 2012-10-02 The Baha'i community of Iran is the country's largest non-Muslim religious minority. This collection of essays presents a comprehensive study of the social and historical development of the Baha'i community, and its role in shaping modern Iran. Central to this study is the pioneering character of the Baha'i community in the late 19th and early 20th century, with chapters examining the role of women in the Baha'i community; the impact of Baha'i-run schools on Iranian society, Baha'i contributions to public health initiatives; and the influence of Baha'i thought and the actions of individual Baha'is on the Constitutional Revolution of 1906-1911. Conversion to the Baha'i Faith is another important theme, as contributors investigate the phenomenon of large scale conversion to the Baha'i Faith from the Jewish and Zoroastrian communities. Finally, although persecution of the Baha'is has drawn the attention of the Western media, until now few scholars working in the field of Iranian studies have chosen to write on the history or details of this persecution. Here, five prominent figures in the field redress this balance and look at different aspects of this persecution, including its historical background, the attitude of secular Iranians, persecution before and after the Islamic

Revolution of 1979, and human rights perspectives. This book will be of interest to students and scholars of Iranian studies, Middle Eastern studies and comparative religion, and with many chapters authored by leading academics in Iranian studies, *The Baha'is of Iran* addresses both a gap in academic literature on the Baha'i Faith, and in the study of modern Iran in general.

The Zoroastrian Diaspora John R. Hinnells 2005-04-28 What is the distinctive Zoroastrian experience, and what is the common diasporic experience? The Zoroastrian Diaspora is the outcome of twenty years of research and of archival and fieldwork in eleven countries, involving approximately 250,000 miles of travel. It has also involved a survey questionnaire in eight countries, yielding over 1,840 responses. This is the first book to attempt a global comparison of Diaspora groups in six continents. Little has been written about Zoroastrian communities as far apart as China, East Africa, Europe, America, and Australia or on Parsis in Mumbai post-Independence. Each chapter is based on unused original sources ranging from nineteenth century archives to contemporary newsletters. The book also includes studies of Zoroastrians on the Internet, audio-visual resources, and the modern development of Parsi novels in English. As well as studying the Zoroastrians for their own inherent importance, this book contextualizes the Zoroastrian migrations within contemporary debates on Diaspora studies. John R. Hinnells examines what it is like to be a religious Asian in Los Angeles or London, Sydney or Hong Kong. Moreover, he explores not only how experience differs from one country to another, but also the differences between cities in the same country, for example, Chicago and Houston. The survey data is used firstly to consider the distinguishing demographic features of the Zoroastrian communities in various countries; and secondly to analyse different patterns of assimilation between different groups: men and women and according to the level and type of education. Comparisons are also drawn between people from rural and urban backgrounds; and between generations in religious beliefs and practices, including the preservation of secular culture.
