**The False Traitor** Albert Raimundo Braz  
2003-01-01 The nineteenth-century Métis politician and mystic Louis Riel has emerged as one of the most popular - and elusive - figures in Canadian culture. Since his hanging for treason in 1885, the self-declared David of the New World has been depicted variously as a traitor to Confederation; a French-Canadian and Catholic martyr; a bloodthirsty rebel; a pan-American liberator; a pawn of shadowy white forces; a Prairie political maverick; a First Nations hero; an alienated intellectual; a victim of Western industrial progress; and even a Father of Confederation. Albert Braz synthesizes the available material by and about Riel, including film, sculpture, and cartoons, as well as literature in French and English, and analyzes how an historical figure could be portrayed in such contradictory ways. In light of the fact that most aesthetic representations of Riel bear little resemblance not only to one another but also to their purported model, Braz suggests that they reveal less about Riel than they do about their authors and the society to which they belong. The most comprehensive treatment of the representations of Louis Riel in Canadian literature, *The False Traitor* will be a seminal work in the study of this popular Canadian figure.

National Plots Andrea Cabajsky 2010-07-09  
Fiction that reconsiders, challenges, reshapes, and/or upholds national narratives of history has

long been an integral aspect of Canadian literature. Works by writers of historical fiction (from early practitioners such as John Richardson to contemporary figures such as Alice Munro and George Elliott Clarke) propose new views and understandings of Canadian history and individual relationships to it. Critical evaluation of these works sheds light on the complexity of these depictions. The contributors in *National Plots: Historical Fiction and Changing Ideas of Canada* critically examine texts with subject matter ranging from George Vancouver's west coast explorations to the eradication of the Beothuk in Newfoundland. Reflecting diverse methodologies and theoretical approaches, the essays seek to explicate depictions of "the historical" in individual texts and to explore larger questions relating to historical fiction as a genre with complex and divergent political motivations and goals. Although the topics of the essays vary widely, as a whole the collection raises (and answers) questions about the significance of the roles historical fiction has played within Canadian culture for nearly two centuries.

**The/Les Collected Writings of Louis Riel/Ecrits complets de Louis Riel** George G.F. Stanley 1985-01-01 This critical, definitive edition is composed of five annotated volumes: three of letters, diaries, declarations, and other prose writings, ordered chronologically; one of poetry; and a reference volume. Essential reading for anyone wanting to understand Riel and his influence on the history of Western

Canada.

**Riel's Defence** Hans V. Hansen 2014-06-01 In 1885, Louis Riel was charged with high treason, found guilty, and consequently executed for his role in Saskatchewan's North-West Rebellion. During his trial, the Métis leader gave two speeches, passionately defending the interests of the Métis in western Canada as well as his own life. Riel's Defence studies these speeches, demonstrating the range of Riel's political and personal concerns. The first and better known of the two speeches addresses the jury, while Riel's second speech - rarely reprinted - addresses the court following his guilty verdict. Both orations have been edited, annotated, and reprinted, and are followed by essays from diverse perspectives including philosophy, law, history, political science, religion, and communication studies. Through the course of their inquiry, contributors come to understand more about Riel's personal character and political thought, as well as his arguments supporting Métis land claims, grievances against the federal government, and his immigration plan for the North-West. Evaluating the rhetorical quality, legal merit, and cultural stakes of his speeches, Riel's Defence reveals the significance of the last public statements made by a man who indelibly shaped Canada's history by combining his personal vision with a national vision.

**Metis in Canada** Christopher Adams 2013-08-14 These twelve essays constitute a groundbreaking volume of new work prepared by leading scholars in the fields of history, anthropology, constitutional law, political science, and sociology, who identify the many facets of what it means to be Métis in Canada today. After the Powley decision in 2003, Métis people were no longer conceptually limited to the historical boundaries of the fur trade in Canada. Key ideas explored in this collection include identity, rights, and issues of governance, politics, and economics. The book will be of great interest to scholars in political science and native studies, the legal community, public administrators, government policy advisors, and people seeking to better understand the Métis past and present. Contributors: Christopher Adams, Gloria Jane Bell, Glen Campbell, Gregg Dahl, Janique Dubois, Tom Flanagan, Liam J. Haggarty, Laura-

Lee Kearns, Darren O'Toole, Jeremy Patzer, Ian Peach, Siomonn P. Pulla, Kelly L. Saunders. **Canada & Its Americas** Winfried Siemerling 2010 The chapters in this volume, a groundbreaking work in the burgeoning field of hemispheric American studies, expand the horizons of Canadian and Québécois literatures, suggest alternative approaches to models centred on the United States, and analyze the risks and benefits of hemispheric approaches to Canada and Quebec. Revealing the connections among a broad range of Canadian, Québécois, American, Caribbean, Latin American, and diasporic literatures, the contributors critique the neglect of Canadian works in Hemispheric studies and show how such writing can be successfully integrated into an emerging area of literary inquiry. An important development in understanding the diversity of literatures throughout the western hemisphere, Canada and Its Americas reveals exciting new ways for thinking about transnationalism, regionalism, border cultures, and the literatures they produce.

**Métis Politics and Governance in Canada** Kelly Saunders 2019-05-15 At a time when the Métis are becoming increasingly visible in Canadian politics, this unique book offers a practical guide for understanding who they are and the challenges they face on the path to self-government. It shows how the Métis are giving life to Louis Riel's vision of a self-governing Métis Nation through the ongoing application of principles of governance that emerged during the fur trade. Drawing on the Métis language - Michif - Kelly Saunders and Janique Dubois demonstrate how the Métis have adapted their governance structures within the Canadian state context to meet the everyday needs of Métis citizens.

**Literary Land Claims** Margery Fee 2015-10-16 Literature not only represents Canada as "our home and native land" but has been used as evidence of the civilization needed to claim and rule that land. Indigenous people have long been represented as roaming "savages" without land title and without literature. *Literary Land Claims: From Pontiac's War to Attawapiskat* analyzes works produced between 1832 and the late 1970s by writers who resisted these dominant notions. Margery Fee examines John

Richardson's novels about Pontiac's War and the War of 1812 that document the breaking of British promises to Indigenous nations. She provides a close reading of Louis Riel's addresses to the court at the end of his trial in 1885, showing that his vision for sharing the land derives from the Indigenous value of respect. Fee argues that both Grey Owl and E. Pauline Johnson's visions are obscured by challenges to their authenticity. Finally, she shows how storyteller Harry Robinson uses a contemporary Okanagan framework to explain how white refusal to share the land meant that Coyote himself had to make a deal with the King of England. Fee concludes that despite support in social media for Theresa Spence's hunger strike, Idle No More, and the Indian Residential School Truth and Reconciliation Commission, the story about "savage Indians" and "civilized Canadians" and the latter group's superior claim to "develop" the lands and resources of Canada still circulates widely. If the land is to be respected and shared as it should be, literary studies needs a new critical narrative, one that engages with the ideas of Indigenous writers and intellectuals.

*Metis and the Medicine Line* Michel Hogue  
2015-04-06 Born of encounters between Indigenous women and Euro-American men in the first decades of the nineteenth century, the Plains Metis people occupied contentious geographic and cultural spaces. Living in a disputed area of the northern Plains inhabited by various Indigenous nations and claimed by both the United States and Great Britain, the Metis emerged as a people with distinctive styles of speech, dress, and religious practice, and occupational identities forged in the intense rivalries of the fur and provisions trade. Michel Hogue explores how, as fur trade societies waned and as state officials looked to establish clear lines separating the United States from Canada and Indians from non-Indians, these communities of mixed Indigenous and European ancestry were profoundly affected by the efforts of nation-states to divide and absorb the North American West. Grounded in extensive research in U.S. and Canadian archives, Hogue's account recenters historical discussions that have typically been confined within national boundaries and illuminates how Plains

Indigenous peoples like the Metis were at the center of both the unexpected accommodations and the hidden history of violence that made the "world's longest undefended border."

*Remapping Sovereignty* David Myer Temin  
2023-08-29 An examination of anticolonial thought and practice across key Indigenous thinkers. Accounts of decolonization routinely neglect Indigenous societies, yet Native communities have made unique contributions to anticolonial thought and activism. *Remapping Sovereignty* examines how twentieth-century Indigenous activists in North America debated questions of decolonization and self-determination, developing distinctive conceptual approaches that both resonate with and reformulate key strands in other civil rights and global decolonization movements. In contrast to decolonization projects that envisioned liberation through state sovereignty, Indigenous theorists emphasized the self-determination of peoples against sovereign state supremacy and articulated a visionary politics of decolonization as earthmaking. Temin traces the interplay between anticolonial thought and practice across key thinkers, interweaving history and textual analysis. He shows how these insights broaden the political and intellectual horizons open to us today.

*A Line of Blood and Dirt* Benjamin Hoy  
2021-02-02 The untold history of the multiracial making of the border between Canada and the United States. Often described as the longest undefended border in the world, the Canada-US border was born in blood, conflict, and uncertainty. At the end of the American Revolution, Britain and the United States imagined a future for each of their nations that stretched across a continent. They signed treaties with one another dividing lands neither country could map, much less control. A century and a half later, Canada and the United States had largely fulfilled those earlier ambitions. Both countries had built nations that stretched from the Atlantic to the Pacific and had made an expansive international border that restricted

movement. The vision that seemed so clear in the minds of diplomats and politicians never behaved as such on the ground. Both countries built their border across Indigenous lands using hunger, violence, and coercion to displace existing communities and to disrupt their ideas of territory and belonging. The border's length undermined each nation's attempts at control. Unable to prevent movement at the border's physical location for over a century, Canada and the United States instead found ways to project fear across international lines. They aimed to stop journeys before they even began.

**Persona Non Grata** Tom Flanagan 2015-03-03  
Now in paperback, a passionate and edgy defense of free speech in Canada, and the role the internet plays in the issue--from an acclaimed writer and former advisor to Prime Minister Stephen Harper. On February 28th, 2013, Tom Flanagan, well-known author, University of Calgary professor, and former advisor to Prime Minister Stephen Harper, made comments about the punishment for viewing child pornography that were tweeted from the event he was speaking at and broadcast worldwide. Following the event, in the two-and-a-half hours it took to drive from Lethbridge to his home in Calgary, Flanagan's career and reputation came under siege. Every media outlet made the story front-page news, most of them deriding Flanagan and casting him as a pariah. His university, the Prime Minister's Office, other influential politicians, and much of the media, including the CBC, made him persona non grata before he even had a chance to explain the comments he made. *Persona Non Grata* is a superb and convincing defense of free speech--not just in Canada but everywhere--in the age of the Internet, a double-edged sword when it comes to freedom of expression.

Reid 2004-01-28 Frank Lloyd Wright: The Lost Years, 1910-1922 uncovers the real story of Wright's travels in Europe. By examining this elusive and influential period in Wright's development, Alofsin restores an important chapter to the history of modern architecture. Bringing new definition and insight to the story of Frank Lloyd Wright, this book has become a standard work on America's greatest architect. "Alofsin has set out to explain the impact of European culture on Wright by integrating its artistic influence with the tumultuous events in his private life. . . . [He] succeeds in this ambitious goal."—Kevin Nute, *Architects' Journal* "A convincing and well-documented case that these were in fact crucial and fruitful years in Wright's development as an architect. . . . Absorbing."—Catherine Maclay, *San Jose Mercury News* "One of the best."—Robert Fulford, *Toronto Globe and Mail*

**Contours of a People** Nicole St-Onge 2014-12-18 What does it mean to be Metis? How do the Metis understand their world, and how do family, community, and location shape their consciousness? Such questions inform this collection of essays on the northwestern North American people of mixed European and Native ancestry who emerged in the seventeenth century as a distinct culture. Volume editors Nicole St-Onge, Carolyn Podruchny, and Brenda Macdougall go beyond the concern with race and ethnicity that takes center stage in most discussions of Metis culture to offer new ways of thinking about Metis identity. Geography, mobility, and family have always defined Metis culture and society. The Metis world spanned the better part of a continent, and a major theme of *Contours of a People* is the Metis conception of geography—not only how Metis people used their environments but how they gave meaning to place and developed connections to multiple landscapes. Their geographic familiarity,

physical and social mobility, and maintenance of family ties across time and space appear to have evolved in connection with the fur trade and other commercial endeavors. These efforts, and the cultural practices that emerged from them, have contributed to a sense of community and the nationalist sentiment felt by many Metis today. Writing about a wide geographic area, the contributors consider issues ranging from Metis rights under Canadian law and how the Library of Congress categorizes Metis scholarship to the role of women in maintaining economic and social networks. The authors' emphasis on geography and its power in shaping identity will influence and enlighten Canadian and American scholars across a variety of disciplines.

**The Comeback** John Ralston Saul 2014-10-28 Once again, John Ralston Saul presents the story of Canada's past so that we may better understand its present - and imagine a better future. Historic moments are always uncomfortable, Saul writes in this impassioned argument, calling on all of us to embrace and support the comeback of Aboriginal peoples. This, he says, is the great issue of our time - the most important missing piece in the building of Canada. The events that began late in 2012 with the Idle No More movement were not just a rough patch in Aboriginal relations with the rest of Canada. What is happening today between Aboriginals and non-Aboriginals is not about guilt or sympathy or failure or romanticization of the past. It is about citizens' rights. It is about rebuilding relationships that were central to the creation of Canada. These relationships are just as important to its continued existence. The centrality of Aboriginal issues and peoples has the potential to open up a more creative way of imagining ourselves and a more honest narrative for Canada. Wide in scope but piercing in detail, *The Comeback* presents a powerful portrait of modern Aboriginal life in Canada, in contrast with the perceived failings so often portrayed in politics and in media. Saul illustrates his arguments by compiling a remarkable selection of letters, speeches and writings by Aboriginal leaders and thinkers, showcasing the extraordinarily rich, moving and stable indigenous point of view across the centuries.

*The Oxford Handbook of Canadian Literature* Cynthia Conchita Sugars 2016 The Oxford Handbook of Canadian Literature provides a broad-ranging introduction to some of the key critical fields, genres, and periods in Canadian literary studies. The essays in this volume, written by prominent theorists in the field, reflect the plurality of critical perspectives, regional and historical specializations, and theoretical positions that constitute the field of Canadian literary criticism across a range of genres and historical periods. The volume provides a dynamic introduction to current areas of critical interest, including (1) attention to the links between the literary and the public sphere, encompassing such topics as neoliberalism, trauma and memory, citizenship, material culture, literary prizes, disability studies, literature and history, digital cultures, globalization studies, and environmentalism or ecocriticism; (2) interest in Indigenous literatures and settler-Indigenous relations; (3) attention to multiple diasporic and postcolonial contexts within Canada; (4) interest in the institutionalization of Canadian literature as a discipline; (5) a turn towards book history and literary history, with a renewed interest in early Canadian literature; (6) a growing interest in articulating the affective character of the literary - including an interest in affect theory, mourning, melancholy, haunting, memory, and autobiography. The book represents a diverse array of interests -- from the revival of early Canadian writing, to the continued interest in Indigenous, regional, and diasporic traditions, to more recent discussions of globalization, market forces, and neoliberalism. It includes a distinct section dedicated to Indigenous literatures and traditions, as well as a section that reflects on the discipline of Canadian literature as a whole.

**River Road** Gerald Friesen 1996-12-03 The prairies are a focal point for momentous events in Canadian history, a place where two visions of Canada have often clashed: Louis Riel, the Manitoba School Question, French language rights, the 1919 Winnipeg General Strike, and the dramatic collapse of the Meech Lake Accord when MLA Elijah Harper voted "No." Gerald Friesen believes that it is the responsibility of

the historian to “tell local stories in terms and concepts that make plain their intrinsic value and worth, that explain the relationship between the past and the present.” For local experiences to have any relevant meaning, they must be put into the context of the wider world. These essays were written for the general reader and the academic historian. They include previously published works (many of them revised and updated) from a wide variety of sources, and new pieces written specifically for River Road, examining aspects of prairie and Manitoba history from many different perspectives. They offer portraits of representatives from different sides of the prairie experience, such as Bob Russell, radical socialist and leader of the 1919 General Strike, and J.H. Riddell, conservative Methodist minister who represented “sane and safe” stewardship in the 1920s and 1930s. They explore the changing relationship between Aboriginal peoples and the “dominant” society, from the prosperous Metis community that flourished along the Red River in the 19th century (and produced Manitoba’s first Metis premier) to the events that led to the Manitoba Aboriginal Justice Inquiry in the 1980s. Other essays consider new viewpoints of the prairie past, using the perspectives of ethnic and cultural history, women’s history, regional history, and labour history to raise questions of interpretation and context. The time frame considered is equally wide-ranging, from the Aboriginal and Red River society to the political arena of current constitutional debates.

*Embedded* Ted Glenn 2020-11-07 A first-hand chronicle of Wolseley’s expedition to end Riel’s Red River Rebellion by a remarkable trio embedded on the mission. In the spring of 1870, two reporters set off from Toronto to cover one of the biggest stories in Canadian history: Colonel Garnet Wolseley’s 1870 expedition to Red River. Over the course of six months, the Daily Telegraph’s Robert Cunningham and the Globe’s Molyneux St. John brought readers along as they paddled and portaged alongside the expedition’s 1,100 troops and 400 voyageurs and guides from the shores of Lake Superior to Fort Garry. But that’s not the whole story. Buried well below the fold was the fact that St.

John’s wife — international burlesque star Kate Ranoe — accompanied him and the expedition, and not just as an adventurer. Owing to an accident early on, Ranoe ended up ghostwriting many of St. John’s stories. Embedded is the remarkable story of two reporters and one extraordinary woman as they journeyed to Red River with Colonel Garnet Wolseley and his expeditionary force.

### **New Directions in American Indian History**

Colin Gordon Calloway 1992 Each year more than five hundred new books appear in the field of North American Indian history. There exists, however, no means by which scholars can easily judge which are most significant, which explore new fields of inquiry and ask new questions, and which areas are the subject of especially strong inquiry or are being overlooked. *New Directions in American Indian History* provides some answers to these questions by bringing together a collection of bibliographic essays by historians, anthropologists, sociologists, religionists, linguists, economists, and legal scholars who are working at the cutting edge of Indian history. This volume responds to the label “new directions” in two ways. First, it describes what new directions have been pursued recently by historians of the Indian experience. Second, it points out some new directions that remain to be pursued. Part One, “Recent Trends,” contains six essays reviewing the following six areas where there has been significant interest and activity: quantitative methods in Native American history, by Melissa L. Meyer and Russell Thornton; American Indian women, by Deborah Welch; new developments in Métis history, by Dennis F.K. Madill; recent developments in southern plains Indian history, by Willard Rollings; Indians and the law, by George S. Grossman; and twentieth-century Indian history, by James Riding In. Part Two, “Emerging Trends,” contains essays on aspects of Indian history that remain undeveloped: language study and Plains Indian history, by Douglas R. Parks; economics and American Indian history, by Ronald L. Trosper; and religious changes in Native American societies, by Robert A. Brightman. These latter essays present a critique of current scholarship and sketch an agenda for future inquiry. Taken together, the nine essays in this book will help students at all

levels to evaluate recent scholarship and tap the immense contemporary literature on American Indian history.

Jim Morrison As the title indicates, *Trans/American, Trans/Oceanic, Trans/lation* points towards the International American Studies Society's aims to promote cross-disciplinary study and teaching of the Americas regionally, hemispherically, nationally and transnationally. But it also reflects, less strategically but more forcefully, the heterogeneous and often unexpected themes, topics and motifs addressed in this forum. These articles are revealing in that they give face and expression to the evolving trends and preoccupations in the field. In various ways and from different disciplinary angles, the essays explore key questions in International American Studies: what have been the symbolic and material relations between the "Americas" and the "USA," and between "America" and the "World"? What are the meanings and workings of these four entities when examined across nations, cultures and languages? In what ways does American experience contribute to the global (re-)production of social, cultural and economic practices?

*Royally Wronged* Constance Backhouse 2021-10-27 The Royal Society of Canada's mandate is to elect to its membership leading scholars in the arts, humanities, social sciences, and sciences, lending its seal of excellence to those who advance artistic and intellectual knowledge in Canada. Duncan Campbell Scott, one of the architects of the Indian residential school system in Canada, served as the society's president and dominated its activities; many other members - historically overwhelmingly white men - helped shape knowledge systems rooted in colonialism that have proven catastrophic for Indigenous communities. Written primarily by current Royal Society of Canada members, these essays explore the

historical contribution of the RSC and of Canadian scholars to the production of ideas and policies that shored up white settler privilege, underpinning the disastrous interaction between Indigenous peoples and white settlers. Historical essays focus on the period from the RSC's founding in 1882 to the mid-twentieth century; later chapters bring the discussion to the present, documenting the first steps taken to change damaging patterns and challenging the society and Canadian scholars to make substantial strides toward a better future. The highly educated in Canadian society were not just bystanders: they deployed their knowledge and skills to abet colonialism. This volume dives deep into the RSC's history to learn why academia has more often been an aid to colonialism than a force against it. *Royally Wronged* poses difficult questions about what is required - for individual academics, fields of study, and the RSC - to move meaningfully toward reconciliation.

#### National Literature in Multinational States

Albert Braz 2023-04-13 If literature has often informed the creation of a national imaginary—a sense of common history and destiny—it has also complicated, even challenged, the unifying vision assumed in the formation of a national literature and sense of nation. *National Literature in Multinational States* questions the persistent association of literature and nation-states, contrasting this with the reality of multinational and ethnocultural diversity. The contributors to this collection interrogate concepts and manifestations of nationalism in the context of literary production while evaluating the place of national literatures in multinational states at a time when social unity and political agreement have never been more elusive. The volume strives for synoptic analysis via the complementary, multifaceted treatment of literary creation in several geo-cultural contexts: Canada, the Caribbean, Europe, India, and Nigeria. Contributors: Sabujkoli Bandopadhyay, Albert Braz, Matthew Cormier, Doris Hambuch, Clara A.B. Joseph, Paul D. Morris, Asma Sayed, Matthew Tétreault, Uchechukwu Peter Umezurike, Jerry White

**Unsettled Pasts** Sarah Carter 2005 This collection stems from a recent conference at University of Calgary that included some of the

most established names in the field of women's history in the US and Canada, as well as younger scholars, activists in the Aboriginal community and in farm women's organisations, volunteers in historical societies working to preserve women's voices, family and genealogical researchers, film-makers, a poet, a playwright and many others. Designed to generate writing and research about the West through women's eyes, the central goal of the conference was to spark dialogue across boundaries, whether geographic, cultural or disciplinary. The volume is divided into two parts: the first section discusses the role of women in history as community builders and cultural preservationists, and the second section is concerned with gender history in numerous disciplines such as history, education, nursing and communication studies. This collection highlights the extent to which Western and women's history remains a contested or unsettled terrain and argues that the greatest strength of historical analyses that take sex and gender into account is their ability to complicate and consequently transcend regional myths and frontier legacies that emerged out of imperial and masculine priorities and perspectives.
