Capital as Power Jonathan Nitzan 2009-06-02 Conventional theories of capitalism are mired in a deep crisis: after centuries of debate, they are still unable to tell us what capital is. Liberals and Marxists both think of capital as an 'economic' entity that they count in universal units of 'utils' or 'abstract labour', respectively. But these units are totally fictitious. Nobody has ever been able to observe or measure them, and for a good reason: they don't exist. Since liberalism and Marxism depend on these non-existing units, their theories hang in suspension. They cannot explain the process that matters most - the accumulation of capital. This book offers a radical alternative. According to the authors, capital is not a narrow economic entity, but a symbolic quantification of power. It has little to do with utility or abstract labour, and it extends far beyond machines and production lines. Capital, the authors claim, represents the organized power of dominant capital groups to reshape - or reorder - their society. Written in simple language, accessible to lay readers and experts alike, the book develops a novel political economy. It takes the reader through the history, assumptions and limitations of mainstream economics and its associated theories of politics. It examines the evolution of Marxist thinking on accumulation and the state. And it articulates an innovative theory of 'capital as power' and a new history of the 'capitalist mode of power'.

Eala Ayn Cates Sullivan 2021-09-17 "Eala, Mother Swan / La Madre Cisne by Ayn Cates Sullivan is a 32-page-long children's illustrated book, beautifully crafted in detailed pastel colors. It is a fairy tale written in both English and Spanish simultaneously. A young boy named Hugo goes in search of the Eala, the magical swan his grandmother has told him about. He finds her just as she is preparing to fly between the worlds. Circling back down, Hugo climbs on her back and she takes him between the crack of night and day so he can find the songs and colors of his heart and soul. But the story goes deeper, for we come to understand the child has suffered wounds for ever so long. By taking this ride can he allow his soul to be restored, and learn the importance of being childlike again? I liked the way the author chose to bring two languages onto the same page - an excellent way to learn Spanish (or English words) and to slow down and thoroughly enjoy the story. The story itself is of a gentle soul who seeks magic, with the hope of attaining something greater than what he currently is. Can he learn his value and restore what was once lost? Eala, Mother Swan / La Madre Cisne, by Ayn Cates Sullivan, is a beautifully illustrated book that children will enjoy reading over and over. The magical story passed down from past generations illustrates the importance of family and traditions. A recommended read." - Reviewed by Bruce Arrington for Readers' Favorite 5 stars

The Difficulty of Being Good Gurcharan Das 2010-10-04 Why should we be good? How should we be good? And how might we more deeply understand the moral and ethical failings - splashed across today's headlines - that have not only destroyed individual lives but caused widespread calamity as well, bringing communities, nations, and indeed

the global economy to the brink of collapse? In *The Difficulty of Being Good*, Gurcharan Das seeks answers to these questions in an unlikely source: the 2,000-year-old Sanskrit epic, Mahabharata. A sprawling, witty, ironic, and delightful poem, the Mahabharata is obsessed with the elusive notion of dharma - in essence, doing the right thing. When a hero does something wrong in a Greek epic, he wastes little time on self-reflection; when a hero falters in the Mahabharata, the action stops and everyone weighs in with a different and often contradictory take on dharma. Each major character in the epic embodies a significant moral failing or virtue, and their struggles mirror with uncanny precision our own familiar emotions of anxiety, courage, despair, remorse, envy, compassion, vengefulness, and duty. Das explores the Mahabharata from many perspectives and compares the successes and failures of the poem's characters to those of contemporary individuals, many of them highly visible players in the world of economics, business, and politics. In every case, he finds striking parallels that carry lessons for everyone faced with ethical and moral dilemmas in today's complex world. Written with the flair and seemingly effortless erudition that have made Gurcharan Das a bestselling author around the world - and enlivened by Das's forthright discussion of his own personal search for a more meaningful life - *The Difficulty of Being Good* shines the light of an ancient poem on the most challenging moral ambiguities of modern life.

Fishing for Dr Richard: Sometimes We Need One Another's Stories to Catch the Truth. Bob Kimmerling 2021-11-12 You've been told that it's rude to eavesdrop, but this book bids you lean into a captivating conversation between two older men, one a founding father of pharmaceutical medicine, the other a former architect and church minister. Following a chance meeting, they agree to a pilgrimage... of sorts. After five years, they hadn't travelled far, and yet searched the cosmos to encounter its big questions of life, death, and the love of God - with wormholes, parallel universes, and adventures on the way. Dr Richard knew the life of village church, choirboy, and good living, but had little experience of intimate friendship with God. His younger friend knew only atheism and colourful living, until being surprised by the joy of welcome from his heavenly Father. Dr Richard was a big man with size 17 shoes and living on borrowed time. Was the author's own call to become a fisher of men going to see him safely to the net? "Knowing Bob over the years, I feel privileged to read of his touching relationship with Dr Richard. Their wonderful journey of exploration helped restore my Christian faith and I believe it will encourage others to draw closer to God." David Ambrose. A founder member of Fleetwood Mac and former executive at EMI and MCA/Universal Records. David is the author of 'How to be a Rock Star'. "A remarkable book of friendship and ruthless honesty as two men share their lives, their questions and their hearts. It's also about life and death, and if you let it, it will point you to grace. And grace, as you will discover, is the only thing you need." Rev David Cooke. Vicar, Holy Trinity Barnes, London. "Brilliant - an inspiring five-year dialogue, sharing the joys and sorrows of life's belief and faith." Andrew Jennings OBE. The New Utopian Politics of Ursula K. Le Guin's The Dispossessed Laurence Davis 2005-11-22 The Dispossessed has been described by political thinker Andre Gorz as 'The most striking description I know of the seductions—and snares—of self-managed communist or, in other words, anarchist society.' To date, however, the radical social, cultural, and political ramifications of Le Guin's multiple award-winning novel remain woefully under explored. Editors Laurence Davis and Peter Stillman right this state of affairs in the first ever collection of original essays devoted to Le Guin's novel. Among the topics covered in this wide-ranging, international and interdisciplinary collection are the anarchist, ecological, post-consumerist, temporal, revolutionary, and open-ended utopian politics of The Dispossessed. The book concludes with an essay by Le Guin written specially for this volume, in which she reassesses the novel in light of the development of her own thinking over the past 30 years.

Contrary to popular belief, it was not a war of two countries fighting one another. It was written to expose the racial issues in Vietnam that you never saw on the evening news. I feared for my life every day, not from the Viet Cong. I had to watch my back 24-7 from men who wore the same uniform as me. At first, it made me bitter. I failed to find any connection between the racial tensions in the USA and black troops serving in Vietnam. How could I be held responsible for the conduct of other people more than 10,000 miles from me, people I had never even met? Later I realized that Vietnam made me stronger as well as mistrustful. I felt free in Vietnam; I could go anywhere I wanted without any fear whatsoever. I was called "soul brother" and told almost daily that the Vietnamese and black people had the same enemy. I have to admit, they did have a point. My conscious is clear, I never harmed anyone in Vietnam and God is my witness!

No one sees the kidnapping; or if they do, they forget. But one toddler returns after a week, riding a wolf, with a falcon circling over him. That boy is Will Cleary. Will tries to live a normal life. But his twin sister is still missing, and their parents never stop searching for her. Then just before his thirteenth birthday, Will's pets reveal a secret to him. (Though how it happens will remain a secret, until you read the book.) A hidden world lies beneath our feet, a land filled with see-through trees and lucent people. They call us Sounds, and they are our Echoes; for each one of them is a reflection of one of us. It is a sparkling, beautiful place, a winter wonderland. But there is evil there, a terrible law, the Law of Death. When a Sound dies in our world, his Echo is executed in Echoland. And there are those who reverse the order of things, to achieve their wicked ends. They hunt the Sound of the Echo they want to kill. Then the first death leads to the second as surely as lightning leads to thunder. Is that what happened to the missing children in Will's realm? Did someone want to murder their Echoes? Or are these Sounds still alive, trapped somewhere in Echoland? Will tries to escape the frightening answer. But dangers sweep him into that magical, see-through land. And there, in a fortress filled with castaway children, a two-hundred-year-old riddle lies buried. The most important boy in Echoland will help Will solve it, with a handful of other kids. For the fate of Echoland, and of the Sound realm, depends on the answer. An answer hidden in an ancient book... Deep in a frozen lake of gems... Beyond a buried door... At the foot of the greatest Crystillery of all. But many men and monsters, crystal balls and spying eyes, will try to stop the brave teens. For how see-through your skin is is all-important in Echoland. And when this ancient hate will end, the realm of the Echoes will change forever.

Apotheosis Now Yanhao Huang 2021-04-13 Many of us are starting to become tired of this game of life. We have been comparing and striving all our life. But no matter how much success we have achieved—we are still hollow and still have found nothing fulfilling. We don't even know if happiness exists because it is no longer a living thing in our experience—it has become dead, as we only know it as a concept or memory. We have sought self-help advice, philosophies, and religious teachings to transform ourselves but have not gotten anywhere. We have made some superficial improvements—like adopting a new mindset—but our core remains the same. We are still competitive, still fearful, and we get disturbed all the time. The problem with all attempts at self-improvement is that we do not address the fundamental problem, which is: who is the "you" who needs to be improved? We do not see that the one who is making the improvement is the same one who needs to be improved. The more we try to improve, the more conflict we introduce, within and without. The more knowledge we stuff in our heads, the more we become trapped in a conceptual prison of reality. Inevitably, the more confused we get in life. The book guides the reader out of their distorted beliefs to experience reality beyond the mind. When the deeper

intelligence is allowed to flourish without our mind's interference, then the game of life becomes effortless.
