A Stitch in Time Aimee E. Newell 2014-03-15
Drawing from 167 examples of decorative
needlework—primarily samplers and quilts from

114 collections across the United States—made
by individual women aged forty years and over
between 1820 and 1860, this exquisitely
illustrated book explores how women

experienced social and cultural change in antebellum America. The book is filled with individual examples, stories, and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time. For example, in October 1852, Amy Fiske (1785–1859) of Sturbridge, Massachusetts, stitched a sampler. But she was not a schoolgirl making a sampler to learn her letters. Instead, as she explained, “The above is what I have taken from my sampler that I wrought when I was nine years old. It was w[rough]t on fine cloth [and] it tattered to pieces. My age at this time is 66 years.” Situated at the intersection of women’s history, material culture study, and the history of aging, this book brings together objects, diaries, letters, portraits, and prescriptive literature to consider how middle-class American women experienced the aging process. Chapters explore the physical and mental effects of “old age” on antebellum women and their needlework, technological

developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production, and how gift needlework functioned among friends and family members. Far from being solely decorative ornaments or functional household textiles, these samplers and quilts served their own ends. They offered aging women a means of coping, of sharing and of expressing themselves. These “threads of time” provide a valuable and revealing source for the lives of mature antebellum women. Publication of this book was made possible in part through generous funding from the Coby Foundation, Ltd and from the Quilters Guild of Dallas, Helena Hibbs Endowment Fund.

Understanding Tracy Letts Thomas Fahy
2020-09-04 Winner of the Pulitzer Prize in drama as well as Tony Awards for best play and best actor, Tracy Letts has emerged as one of the greatest playwrights of the twenty-first century. Understanding Tracy Letts, the first

book dedicated to his writing, is an introduction to his plays and an invitation to engage more deeply with his work—both for its emotional power and cultural commentary. Experiencing a Tracy Letts play often feels akin to reading a Cormac McCarthy novel, watching a Cohen Brothers film, and seeing an episode of Breaking Bad at the same time. His characters can be ruthlessly cruel and funny, selfish and generous, delusional and incisive, and deceptive and painfully honest. They keep secrets. They harbor biases and misconceptions. And in their quest to find love and understanding, they often end up being the greatest impediments to their own happiness. As a writer, Letts can move seamlessly from the milieu of a Texas trailer park to the pulsating nightlife of London's countercultural scene, the stifling quiet of small-town Ohio to the racial tensions of urban Chicago. He thrives in the one-act format, in plays like *Mary Page Marlow* and *The Minutes*, as well as the epic scope of *August: Osage*

County and *Linda Vista*. With a musician's sense of timing, Letts shifts between humor and heartache, silence and sound, and the mundane and the poetic. And he fearlessly tackles issues such as gender bias, racism, homophobia, and disability rights. Contemporary American life thus becomes a way to comment on the country's troubled history from Native American genocide to the civil rights movement. The personal narratives of his characters become gateways to the political. Understanding Tracy Letts celebrates the range of Letts's writing, in part, by applying different critical approaches to his works. Whether through the lens of disability studies, the conspiracy genre, food studies, the feminist politics of quilting, or masculinity studies, these readings help bring out the thematic richness and sociopolitical dimensions of Letts's work.

Committed to Victory Richard E. Holl
2015-10-09 When World War II broke out in Europe in September 1939, Kentucky was still plagued by the Great Depression. Even though the inevitability of war had become increasingly apparent earlier that year, the citizens of the Commonwealth continued to view foreign affairs as a lesser concern compared to issues such as the lingering economic depression, the

approaching planting season, and the upcoming gubernatorial race. It was only the Japanese attack on Pearl Harbor that destroyed any lingering illusions of peace. In *Committed to Victory: The Kentucky Home Front During World War II*, author Richard Holl offers the first comprehensive examination of the Commonwealth's civilian sector during this pivotal era in the state's history. National mobilization efforts rapidly created centers of war production and activity in Louisville, Paducah, and Richmond, producing new economic prosperity in the struggling region. The war effort also spurred significant societal changes, including the emergence of female and minority workforces in the state. In the Bluegrass, this trend found its face in Pulaski County native Rose Will Monroe, who was discovered as she assembled B-24 and B-29 bombers and was cast as Rosie the Riveter in films supporting the war effort. Revealing the struggles and triumphs of civilians during World

War II, Holl illuminates the personal costs of the war, the black market for rationed foods and products, and even the inspiration that coach Adolph Rupp and the University of Kentucky basketball team offered to a struggling state. *Committed to Victory* is a timely and engaging account that fills a significant gap in the literature on a crucial period of American history.

Women in American History [4 volumes] Peg A. Lamphier 2017-01-23 This four-volume set documents the complexity and richness of women's contributions to American history and

culture, empowering all students by demonstrating a more populist approach to the past. Based on the content of most textbooks, it would be easy to reach the erroneous conclusion that women have not contributed much to America's history and development. Nothing could be further from the truth. Offering comprehensive coverage of women of a diverse range of cultures, classes, ethnicities, religions, and sexual identifications, this four-volume set identifies the many ways in which women have helped to shape and strengthen the United States. This encyclopedia is organized into four chronological volumes, with each volume further divided into three sections. Each section features an overview essay and thematic essay as well as detailed entries on topics ranging from Lady Gaga to Ladybird Johnson, Lucy Stone, and Lucille Ball, and from the International Ladies of Rhythm to the International Ladies Garment Workers Union. The set also includes a vast variety of primary

documents, such as personal letters, public papers, newspaper articles, recipes, and more. These primary documents enhance users' learning opportunities and enable readers to better connect with the subject matter. Good and Cheap Leanne Brown 2015-07-14 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods,

Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace. **"Women and the Material Culture of**

Needlework and Textiles, 1750?950 "

MaureenDaly Goggin 2017-07-05 Rejecting traditional notions of what constitutes art, this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art. Although scholars over the last twenty years have turned their attention to fiber arts, redefining the conditions, practices, and products as art, there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary. With essays on a range of fiber art practices, including embroidery, knitting, crocheting, machine stitching, rug making, weaving, and quilting, this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity. Focusing on women as producers of cultural products and creators of social value, the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles. Each essay also examines the ways in which

needlework both performs gender and, in turn, constructs gender. Moreover, in concentrating on and theorizing material practices of textiles, these essays reorient the study of fiber arts towards a focus on process?the making of the object, including the conditions under which it was made, by whom, and for what purpose?as a way to rethink the fiber arts as social praxis.

Needlework and Women's Identity in

Colonial Australia Lorinda Cramer 2019-09-05 In gold-rush Australia, social identity was in flux: gold promised access to fashionable new clothes, a grand home, and the goods to furnish it, but could not buy gentility. Needlework and Women's Identity in Colonial Australia explores how the wives, mothers, sisters, and daughters who migrated to the newly formed colony of Victoria used their needle skills as a powerful claim to social standing. Focusing on one of women's most common daily tasks, the book

examines how needlework's practice and products were vital in the contest for social position in the turmoil of the first two decades of the Victorian rush from 1851. Placing women firmly at the center of colonial history, it explores how the needle became a tool for stitching together identity. From decorative needlework to household making and mending, women's sewing was a vehicle for establishing, asserting, and maintaining social status. Interdisciplinary in scope, *Needlework and Women's Identity in Colonial Australia* draws on material culture, written primary sources, and pictorial evidence, to create a rich portrait of the objects and manners that defined genteel goldfields living. Giving voice to women's experiences and positioning them as key players in the fabric of gold-rush society, this volume offers a fresh critical perspective on gender and textile history.

Arab and Jewish Women in Kentucky Nora Rose Moosnick 2012-05-21 Outwardly it would appear that Arab and Jewish immigrants comprise two distinct groups with differing cultural backgrounds and an adversarial relationship. Yet, as immigrants who have settled in communities at a distance from metropolitan areas, both must negotiate complex identities. Growing up in Kentucky as the

granddaughter of Jewish immigrants, Nora Rose Moosnick observed this traditionally mismatched pairing firsthand, finding that, Arab and Jewish immigrants have been brought together by their shared otherness and shared fears. Even more intriguing to Moosnick was the key role played by immigrant women of both cultures in family businesses -- a similarity which brings the two groups close together as they try to balance the demands of integration into American society. In *Arab and Jewish Women in Kentucky: Stories of Audacity and Accommodation*, Moosnick reveals how Jewish and Arab women have navigated the intersection of tradition, assimilation, and Kentucky's cultural landscape. The stories of ten women's experiences as immigrants or the children of immigrants join around common themes of public service to their communities, intergenerational relationships, running small businesses, and the difficulties of juggling family and work. Together, their compelling narratives challenge misconceptions and overcome the

invisibility of Arabs and Jews in out of the way places in America.

Sea-captains' Houses and Rose-covered Cottages Margaret Moore Booker 2003 "With photography, line drawings, and stories, this book captures the architectural history of Nantucket Island, on the East Coast. From its days when the Quakers gained a stronghold on the island, distinguishing their homes with an aesthetic of simplicity and superb craftsmanship, Nantucket has been shaped by the character and tradition of those who have designed and inhabited the tiny island. Today, Nantucket's significant cache of historic buildings - from simple lean-to houses to Federal-style mansions

to clapboard Victorian summer cottages - are the subject of a preservation movement that serves to protect the island's rich cultural tradition for generations to come." "The book draws upon primary sources, diaries, oral histories, and archived photographs to examine the rich architectural heritage of this designated national treasure. American Freemasonry Alain de Keghel
2017-10-17 Explores the American Masonic system and its strengths and failings • Examines the history of Freemasonry in the United States from the colonial era and the Revolutionary War to the rise of the Scottish branch onward •

Investigates the racial split in American Freemasonry between black lodges and white and how, unlike French lodges, women are ineligible to become Masons in the U.S. • Reveals the factors that have resulted in shrinking Masonic enrollment in America and explores the revitalization work done by the Grand Lodge of California Freemasonry bears the imprint of the society in which it exists, and Freemasonry in North America is no exception. While keeping close ties to French lodges until 1913, American Freemasonry was also deeply influenced by the experiences of many early American political leaders, leading to distinctive differences from European lodges. Offering an unobstructed view of the American system and its strengths and failings, Alain de Keghel, an elder of the Grand Orient de France and, since 1999, a lifetime member of the Scottish Rite Research Society (Southern U.S. jurisdiction), examines the history of Freemasonry in the United States from the colonial era to the

Revolutionary War to the rise of the Scottish branch onward. He reveals the special relationship between the French Masonic hero, the Marquis de Lafayette, and the Founding Fathers, especially George Washington and Benjamin Franklin, including French Freemasonry's role in the American Revolution. He also explores Franklin's Masonic membership, including how he was Elder of the lodge of the Nine Sisters in Paris. The author investigates the racial split in American Freemasonry between black lodges and white and how, unlike French lodges, women are ineligible to become Masons in the U.S. He examines how American Freemasonry has remained deeply religious across the centuries and forbids discussion of religious or social issues in its lodges, unlike some branches of French Freemasonry, which removed belief in God as a prerequisite for membership in 1877 and whose lodges operate in some respects as philosophical debating societies. Revealing the

factors that have resulted in shrinking Masonic enrollment in America, the author explores the revitalization work done by the Grand Lodge of California and sounds the call to make Freemasonry and its principles relevant to America once again.

"Investigating Iwo encourages us to explore the connection between American visual culture and World War II, particularly how the image inspired Marines, servicemembers, and civilians to carry on with the war and to remember those who made the ultimate sacrifice to ensure victory over the Axis Powers. Chapters shed light on the processes through which history becomes memory and gains meaning over time.

The contributors ask only that we be willing to take a closer look, to remain open to new perspectives that can deepen our understanding of familiar topics related to the flag raising, including Rosenthal's famous picture, that continue to mean so much to us today"--

Global Trade and the Transformation of Consumer Cultures Beverly Lemire 2018-01-11

The oceanic explorations of the 1490s led to countless material innovations worldwide and caused profound ruptures. Beverly Lemire explores the rise of key commodities across the globe, and charts how cosmopolitan consumption emerged as the most distinctive feature of material life after 1500 as people and things became ever more entangled. She shows how wider populations gained access to more new goods than ever before and, through

industrious labour and smuggling, acquired goods that heightened comfort, redefined leisure and widened access to fashion. Consumption systems shaped by race and occupation also emerged. Lemire reveals how material cosmopolitanism flourished not simply in great port cities like Lima, Istanbul or Canton, but increasingly in rural settlements and coastal enclaves. The book uncovers the social, economic and cultural forces shaping consumer behaviour, as well as the ways in which consumer goods shaped and defined empires and communities.

"Remember Now Thy Creator" Naomi E. A. Tarrant 2014-10 This volume considers samplers made in Scotland within the context of girl's lives. It is illustrated by a wide selection of pieces from public and private collections and shows the remarkable variety that was made by young girls as they learnt needle skills. The aim

of this book is to look at samplers made in Scotland as well as their place in the education of girls, putting them within the social context of the period. The time spanned covers the first emergence of a specific Scottish style and ends with the introduction of the 1872 Education (Scotland) Act. The contents include a brief history of samplers, before considering the documentary evidence for samplers in Scotland and the earliest surviving pieces. Naomi E A Tarrant was for many years the Curator of Costume and Textiles at the National Museums of Scotland.

Unfinished João Biehl 2017-11-16 This original, field-changing collection explores the plasticity and unfinishedness of human subjects and lifeworlds, advancing the conceptual terrain of an anthropology of becoming. People's becomings trouble and exceed ways of knowing and acting, producing new possibilities for research, methodology, and writing. The contributors creatively bridge ethnography and

critical theory in a range of worlds on the edge, from war and its aftermath, economic transformation, racial inequality, and gun violence to religiosity, therapeutic markets, animal rights activism, and abrupt environmental change. Defying totalizing analytical schemes, these visionary essays articulate a human science of the uncertain and unknown and restore a sense of movement and possibility to ethics and political practice. *Unfinished* invites readers to consider the array of affects, ideas, forces, and objects that shape contemporary modes of existence and future horizons, opening new channels for critical thought and creative expression. Contributors. Lucas Bessire, João Biehl, Naisargi N. Dave, Elizabeth A. Davis, Michael M. J. Fischer, Angela Garcia, Peter Locke, Adriana Petryna, Bridget Purcell, Laurence Ralph, Lilia M. Schwarcz Judgment and Decision Making Baruch Fischhoff 2013-06-17 Behavioral decision research offers a distinctive approach to understanding and

improving decision making. It combines theory and method from multiple disciplines (psychology, economics, statistics, decision theory, management science). It employs both empirical methods, to study how decisions are actually made, and analytical ones, to study how decisions should be made and how consequential imperfections are. This book brings together key publications, selected to represent the major topics and approaches used in the field. Put in one place, with integrating commentary, it shows the common elements in a research program that represents the scope of the field, while offering depth in each. Together, they provide a vision for what has become a burgeoning field.

The scholars in FEMINIST CIRCULATIONS: RHETORICAL EXPLORATIONS ACROSS SPACE AND TIME work at the nexus of gender, power, and movement to explore the rhetorical nature of circulation, especially considering how women from varying backgrounds and their rhetorics have moved and have been constrained across both space and time. Among the central characters studied in this collection are early

modern laborers, letter writers, petitioners, and embroiderers; African American elocutionists, freedom singers, and bloggers; Muslim religious leaders; Quaker suffragists; South African filmmakers; nineteenth-century conduct book writers; and twenty-first-century pop stars. To generate their claims, contributors draw from and make use of a breadth of archival and primary documents: music videos, tweets, petitions, letters, embroidery work, speeches, memoirs, diaries, and made-for-television movies. Authors read these “texts” with scrutiny and imagination, adding distinction to their chapters’ arguments about circulation by zeroing in on specific rhetorical concepts that span from rhetorical agency, cultivation of ethos, and development of rhetorical education to capacities for social networking, collective and collaborative authorship, and kairotic interventions. Contributors include Jane Donawerth, Jessica Enoch, Danielle Griffin, Nabila Hijazi, Shirley Logan, Elizabeth Ellis

Miller, Karen Nelson, Michele Osherow, Ruth Osorio, Erin Sadlack, Adele Seeff, and Lisa Zimmerelli.

Literate Community in Early Imperial China

Charles Sanft 2019-05-01 Through an examination of archaeologically recovered texts from China's northwestern border regions, argues for widespread interaction with texts in the Han period. This book examines ancient written materials from China's northwestern border regions to offer fresh insights into the role of text in shaping society and culture during the Han period (206/2 BCE-220 CE). Left behind by military installations, these documents—wooden strips and other nontraditional textual materials such as silk—recorded the lives and activities of military personnel and the people around them. Charles Sanft explores their functions and uses by looking at a fascinating array of material,

including posted texts on signaling across distances, practical texts on brewing beer and evaluating swords, and letters exchanged by officials working in low rungs of the bureaucracy. By focusing on all members of the community, he argues that a much broader section of early society had meaningful interactions with text than previously believed. This major shift in interpretation challenges long-standing assumptions about the limited range of influence that text and literacy had on culture and society and makes important contributions to early China studies, the study of literacy, and to the global history of non-elites. "Sanft's analysis fills out what is still a rather sparse picture of life in non-elite, nonofficial social circles. For the first time ever, we learn how women might have been included in a literate community along the ancient northwestern frontier, and we also learn how soldiers and other members of the uneducated or semiliterate public made use of the extensive

knowledge that texts conveyed in their work and lives. None of this information is apparent from traditionally received texts. Sanft therefore does the field a great favor by systematically laying the foundations for a broader understanding of all levels of society, as well as an understanding of how these levels interconnect through systems of knowledge expressed through text.” — Erica Fox Brindley, author of *Ancient China and the Yue: Perceptions and Identities on the Southern Frontier, c. 400 BCE–50 CE Serendipity in Rhetoric, Writing, and Literacy Research* Maureen Daly Goggin 2018-04-01 In the course of research, most scholars have known moments of surprise, catastrophe, or good fortune, though they seldom refer to these occurrences in reports or discuss them with students. *Serendipity in Rhetoric, Writing, and Literacy Research* reveals the different kinds of work scholars, particularly those in rhetoric, writing, and literacy, need to do in order to recognize a serendipitous discovery or a missed

opportunity. In published scholarship and research, the path toward discovery seems clean and direct. The dead ends, backtrackings, start-overs, and stumbles that occur throughout the research process are elided, and seems that the researchers started at point A and arrived safely and neatly at point B without incident, as if by magic. The path, however, is never truly clear and straight. Research and writing is messy. *Serendipity in Rhetoric, Writing, and Literacy Research* features chapters from twenty-three writing scholars who have experienced moments of serendipity in their own work—not by magic or pure chance but through openness and active waiting, which offer an opportunity to prepare the mind. *Serendipity in Rhetoric, Writing, and Literacy Research* illustrates the reality of doing research: there is no reliable prescription or one-size-fits-all manual, but success can be found with focused dedication and an open mind. Posttranslational Modification of Proteins

Christopher Walsh 2006 The number of protein isoforms in proteomes can be two to three orders of magnitude higher than the number of genes in the genomes. This is in large part due to posttranslational modifications of proteins that provide covalent alterations to protein backbones and side chains that increase proteome complexities. Greater than 5% of the genes in the human genome encode enzymes that perform such modifications, including hundreds of protein kinases and opposing phosphatases, ubiquitinyl ligases, acetylases and deacetylases, methyl transferases and glycosyl transferases. The major classes of posttranslational modifications (PTM) are codified according to types of residues modified, underlying chemistry, PTM catalysts, and biological consequences. This is the first comprehensive treatment of this burgeoning area of proteome diversification.
