The Boys of Boise John Gerassi 1966 Written in 1965 about a same-sex sexual scandal that occurred in 1955 in Boise, Idaho, John Gerassi's classic study depicts both middle America's traditional response to homosexuality and an era in the country's history before the modern gay rights movement really got underway. Because much of what Gerassi wrote about persists in today's struggles over gay and lesbian issues, his book still has much to tell us about how contemporary society reacts to, and misunderstands, homosexuality.--from the new Foreword by Peter Boag On the morning of November 2, 1955, the people of Boise, Idaho, were stunned by a screaming headline in the Idaho Daily Statesman, THREE BOISE MEN ADMIT SEX CHARGES. Time magazine picked up the story, reporting that a homosexual underworld had long operated in Idaho's staid capital city. The Statesman led the hysteria that resulted in dozens of arrests--including some highly placed members of the community--and sentences ranging from probation to life imprisonment. Peter Boag's Foreword places the book in historical perspective, summarizing the popular psychological theories and legal conceptions that helped to shape Gerassi's research. He discusses advances in Idaho's public approach to homosexuality and ways in which the provincialism chronicled by Gerassi persists to this day.

Women on the River of Life Ravenna M Helson 2020-11-03 Commenced in 1958 with 142 young women who were seniors at Mills College, the Mills Study has become the largest and longest longitudinal

study of women's adult development, with assessments of these women in their twenties, forties, fifties, sixties, and seventies. Women on the River of Life synthesizes five decades of research to paint a picture of women's personality and development across the lifespan. The book explores questions of family, work, life-path, maturity, wisdom, creativity, attachment, and purpose in life, unfolding in the context of a rapidly changing historical period with far-reaching consequences for the kinds of lives women would envision for themselves. Helson and Mitchell breathe life into abstract theories and concepts with the real-life stories and voices of the study's participants. Woven throughout the book are the authors' reminiscences on the profound endeavor of sustaining a longitudinal study of women's lives through time.

Theory and Practice of Brief Therapy Simon H. Budman 2016-03-14 This classic work provides a richly textured overview of the "whys" and "hows" of brief therapy. The authors identify the central features of effective, time-limited interventions for individuals, couples, families, and groups. Taking a developmental approach to treatment, they explain how brief therapy can help at different times in a patient's life, as changes and transitions bring on new stresses and challenges. A practical framework is provided for selecting and screening patients, rapidly finding a focus for clinical work, and making optimal use of available time. Case examples and extensive transcripts are included to illustrate the use of strategies and techniques drawn from many different psychotherapy perspectives. Throughout, the focus is on creative and efficient ways to help patients build on existing strengths and make desired changes in their interactions with others.

Lz-75 Stephen Davis 2011-07 Stephen Davis's brilliantly written personal account of criss-crossing America with Led Zeppelin on their 1975 tour. A warts-and-all snapshot of the world's biggest hard-rock band at their peak. As a young rock writer Stephen Davis landed the ultimate commission - touring America with Led Zeppelin. This is a personal account by Davis of his journey, which saw him crossing the country with the band on board the Starship, their famous Boeing passenger jet, complete with deep shag purple carpet, electric pianos, girlfriends and

star-struck hangers-on. This is also the story of one of the hardest-living bands in the world at their peak. For Robert Plant, Jimmy Page, John Paul Jones and John Bonham, the most beautiful women in America tear their spangled jackets from them and riots start outside their gigs. LZ-'75 captures a few perfect months in rock, when Led Zeppelin epitomised the free-living rock dream, but, like Icarus, their wings were already beginning to melt. It wouldn't be long before John Bonham died of a vodka overdose, and punk killed their brand of monumental rock. With its up-close-and-personal accounts of band members, managers, groupies, fans and drug-dealers, there's a lot of Almost Famous about this book - Led Zep's 1975 tour is in fact the very one on which Cameron Crowe's film was based. Stephen Davis was barely twenty in 1975, but now he is recognised as one of the best rock writers in the world. He is the author of the mega-selling Hammer of the Gods - a biography of Led Zeppelin. He recently unearthed his notebooks of the 1975 tour - which he didn't use for Hammer of the Gods - to write LZ-'75. LZ-'75: Across America with Led Zeppelin is a wonderful and unique thing - a beautifully succinct account of a single moment in rock, when no lyric was too far-fetched, no drink went undrunk and no expense was ever, ever spared. It's a moment that will never be repeated.

The First Session in Brief Therapy Simon H. Budman 1992-08-07 In all models of therapy, the initial interview is a significant component: It sets the tone, structure, direction, and foundation of treatment. In brief therapy, the opening moves are even more important because there is less time later to correct errors or change direction. This volume provides practitioners with an up-close view of exactly what expert brief therapists do at the beginning of treatment and why they do it. Each author describes his or her particular orientation, presents annotated transcripts of actual initial sessions, and responds to pointed questions from the editors about their cases. Following an introduction by the editors, the first section of the book covers initial sessions in therapies for individuals. These include the rational-emotive approach, a one-session intervention, an interpersonal psychodynamic model,

neurolinguistic programming, and the I-D-E (interpersonal-developmental-existential) approach. Beginning cognitive-behavioral therapy with depressed or drug abusing adolescents is covered, and a directive approach strongly influenced by the work of Milton Erickson is presented. The next section addresses methods and strategies for working with couples and families. Chapters on marital therapy cover an integrative approach that combines an intra- and interpersonal focus in marital therapy, a cognitive-behavioral approach that is based on principles of social learning and social exchange theory, emotionally focused therapy, and an approach that utilizes reflective conversation. A solution-oriented model, "the possibility paradigm," for helping families amplify their strengths is delineated, as is a strategic MRI-style model for working with an individual family member, and a structural approach for creating familial change. An ideal companion to Budman's THEORY AND PRACTICE OF BRIEF THERAPY, this illuminating and unique casebook is essential reading for all clinicians who need to learn more about time-effective models. Offering a comparative view of a variety of models, it is an ideal text for undergraduate and graduate students.

The Moments We Stand Ashlee Birk 2014-07-30 My name is Ashlee. I am a victim of murder. Through a series of events and by two shots of a gun, I was made a widow at the age of 28, with my youngest child just six weeks old. I am a victim of infidelity. I have felt unlovable. I have felt rejected. I have had days in my life when I wasn't sure if I would ever take a breath again, let alone be able to raise my five children by myself. I have lived in fear. I have felt much heartache. I have felt truly broken to my core. I have carried some heavy burdens...not only of my own, but burdens put upon my shoulders by the death of my husband. I have felt alone. I have felt humiliated. I have been humbled to my knees. I have searched my soul to find my worth in this world, and in the life that was left for me. My world has been totally shattered. I have faced realities I never knew were possible, and found strength within myself to keep up the fight and live every day as if it was on purpose. I have been carried by Angels...both earthly beings and those unseen. I have found that being a "victim" doesn't mean we have an excuse to stop living. Being a victim

means finding a reason for seeking a higher road. I have picked up the pieces left and carried on. I am a mother. We are survivors. In one way or another, we are all victims. There are times in our lives when we are forced to question who we are at our core. When we are presented with a path...we can go this way or we can choose that way. For some, this moment comes when the one person whom we love the most decides we are not enough. This person leave us-at a most vulnerable moment-alone to search within ourselves for who we really are. We are left trying to find who it is that was left behind. Sometimes the person we love dies. Sometimes it is merely an internal battle we are facing...all alone inside our minds. Whatever the situation and wherever you have been...you have been hurt. You have felt alone. You have been abandoned, either by your parents, your lover, your friends, complete strangers, or even yourself. We have all been at that crossroad where all we have left is ourselves. Sometimes these moments of lows have brought you to your knees and caused you to reflect and ponder your relationship with God...and other times they have made you question if He is even there, or if He knows you are alone. Whatever that moment has been for you, it is personal and real. It has defined and refined who you are, who you think you were, and who you want to become. This is my story...the defining moments that have truly brought me to my knees, the times when I've questioned to my core my very existence, and the experiences I've had that have shown me who I really am and who my Heavenly Father still needs me to become. The night of my husband's death was my darkest hour, but also the very moment when I saw firsthand that my Heavenly Father sent Angels on errands for me. He carried me. It was the hour when all my fears and all the pain of this world collided together and He was there...putting back together all the pieces, one step at a time.

Assessing the Implications of Allowing Transgender Personnel to Serve Openly Agnes Gereben Schaefer 2016-06-30 The U.S. Department of Defense is considering a change in policy to allow transgender military personnel to serve openly. A RAND study examined the health care needs of transgender personnel, the costs of gender transition-related care,

and the potential readiness implications of a policy change. The experiences of foreign militaries that permit transgender service members to serve openly also point to some best practices for U.S. policymakers.

Described as "the most widely read and discussed essay of the decade," it carried the seed that would blossom into *On Being Different*—one of the earliest memoirs to affirm the importance of coming out. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. Queer Kinship Tracy Morison 2019-09-20 What makes kinship queer? This collection from leading and emerging thinkers in gender and sexualities interrogates the politics of belonging, shining a light on the outcasts, rebels, and pioneers. *Queer Kinship* brings together an array of

thought-provoking perspectives on what it means to love and be loved, to 'do family' and to belong in the South African context. The collection includes a number of different topic areas, disciplinary approaches, and theoretical lenses on familial relations, reproduction, and citizenship. The text amplifies the voices of those who are bending, breaking, and remaking the rules of being and belonging. Photo-essays and artworks offer moving glimpses into the new life worlds being created in and among the 'normal' and the mundane. Taken as a whole, this text offers a critical and intersectional perspective that addresses some important gaps in the scholarship on kinship and families. *Queer Kinship* makes an innovative contribution to international studies in kinship, gender, and sexualities. It will be a valuable resource to scholars, students, and activists working in these areas.

New Choices, New Families Nancy J. Mezey 2008-07-28 How do lesbians decide to become mothers or remain childfree? Why do new families form at particular historical moments? These questions are at the heart of Nancy J. Mezey's *New Choices, New Families*. Researchers, politicians, and society at large continue to debate the changing American family, especially nontraditional families that emerge from divorce, remarriage, grandparents-as-parents, and adoption. This ongoing discussion also engages the controversy surrounding the parental rights of same-sex couples and their families. *New Choices, New Families* enters into this conversation. Mezey asks why lesbians are forming families at this particular historical moment and wonders how race, class, sexual identity, and family history factor into the decision-making process. Drawing heavily from personal interviews, Mezey's groundbreaking analysis gives voice to groups long underrepresented in similar studies—black, Latina, working class, and childfree lesbians. Some chapters examine how childhood experiences contribute to the

desire to become a mother, while others consider the influence of women's partners and careers. *New Choices, New Families* provides thoughtful insights into questions about sexual identity, social and cultural expectations, and what and who constitute a family.

Nathaniel Hawthorne: The Scarlet Letter (English Edition) Nathaniel Hawthorne 2018-11-27 "Unless people are more than commonly disagreeable, it is my foolish habit to contract a kindness for them. The better part of my companion's character, if it have a better part, is that which usually comes uppermost in my regard, and forms the type whereby I recognise the man. As most of these old Custom-House officers had good traits, and as my position in reference to them, being paternal and protective, was favourable to the growth of friendly sentiments, I soon grew to like them all. It was pleasant in the summer forenoons—when the fervent heat, that almost liquefied the rest of the human family, merely communicated a genial warmth to their half torpid

systems—it was pleasant to hear them chatting in the back entry, a row of them all tipped against the wall, as usual; while the frozen witticisms of past generations were thawed out, and came bubbling with laughter from their lips." "The Scarlet Letter" tells the story of Hester Prynne, who conceives a daughter through an affair and struggles to create a new life of repentance and dignity in a puritan environment. It is Nathaniel Hawthorne's most successful novel. "The Scarlet Letter" was first published in 1850.
