From the Kitchen to the Parlor Lanita Jacobs-Huey 2006-04-20 Examines how hair and hair care take on situated social meanings among African American women in varied linguistic interactions--whether with one another, with African American men, or with European American women. Based on years of fieldwork in a range of sites, from cosmetology schools in South Carolina to hair care seminars in Beverly Hills, from stand up comedy clubs in Los Angeles

to online debates about black hair, Jacob-Huey's multifaceted approach documents how and why hair comes to matter so much in African American women's construction of their identities, and how language both mediates and produces these social meanings. --From publisher description.

Stories from the Front of the Room Michelle Harris 2017-02-08 Research demonstrates that faculty of color in historically white institutions experience higher levels of discrimination, cultural taxation, and emotional labor than their white colleagues. Despite efforts to recruit minority faculty, all of these factors undermine their scholarship, pedagogy, social experiences, promotion and retention. This edited volume builds upon the existing research on faculty of color, however, it also departs from the existing

literature and unravels the socio-emotional experiences of being in front of the classroom, in labs, and in the Ivory Tower for faculty who are in multiple racialized social locations. In an effort to circulate the experiences of faculty of color more widely to academic and non-academic audiences, this edited volume replaces conventional scholarly technical papers with unconventionally accessible letters. Stories from the Front of the Room focuses on the boundaries which faculty of color encounter in everyday experiences on campus and presents a more complete picture of life in the academy - one that documents how faculty of color are tested, but also how they can not only overcome, but thrive in their respective educational institutions.

Sociocultural and Historical Contexts of African American English Sonja L. Lanehart

2001-01-01 This volume, based on presentations at a 1998 state of the art conference at the University of Georgia, critically examines African American English (AAE) socially, culturally,

historically, and educationally. It explores the relationship between AAE and other varieties of English (namely Southern White Vernaculars, Gullah, and Caribbean English creoles), language use in the African American community (e.g., Hip Hop, women's language, and directness), and application of our knowledge about AAE to issues in education (e.g., improving overall academic success). To its credit (since most books avoid the issue), the volume also seeks to define the term 'AAE' and challenge researchers to address the complexity of defining a language and its speakers. The volume collectively tries to help readers better understand language use in the African American community and how that understanding benefits all who value language variation and the knowledge such study brings to our society.

Understanding Critical Race Research Methods and Methodologies Jessica T. DeCuir-Gunby

2018-12-07 Despite the growing urgency for

Critical Race Theory (CRT) in the field of education, the "how" of this theoretical framework can often be overlooked. This exciting edited collection presents different methods and methodologies, which are used by education researchers to investigate critical issues of racial justice in education from a CRT perspective. Featuring scholars from a range of disciplines, the chapters showcase how various researchers synthesize different methods—including qualitative, quantitative and mixed methods, and historical and archival research—with CRT to explore issues of equity and access in the field of education. Scholars discuss their current research approaches using CRT and present new models of conducting research within a CRT framework, offering a valuable contribution to ongoing methodological debates. Researchers across different levels of expertise will find the articulations of CRT and methods insightful and compelling.

Schooling Hip-Hop Marc Lamont Hill

2015-04-26 This book brings together veteran and emerging scholars from a variety of fields to chart new territory for hip-hop based education. Looking beyond rap music and the English language arts classroom, innovative chapters unpack the theory and practice of hip-hop based education in science, social studies, college composition, teacher education, and other fields. Authors consider not only the curricular aspects of hip-hop but also how its deeper aesthetics such as improvisational freestyling and competitive battling can shape teaching and learning in both secondary and higher education classrooms. *Schooling Hip-Hop* will spark new and creative uses of hip-hop culture in a variety of educational settings. Contributors: Jacqueline Celemencki, Christopher Emdin, H. Bernard Hall, Decoteau J. Irby, Bronwen Low, Derek

Pardue, James Braxton Peterson, David Stovall, Eloise Tan, and Joycelyn A. Wilson “Hip hop has come of age on the broader social and cultural scene. However, it is still in its infancy in the academy and school classrooms. Hill and Petchauer have assembled a powerful group of scholars who provide elegantly theoretical and practically significant ways to consider hip hop as an important pedagogical strategy. This volume is a wonderful reminder that ‘Stakes is high!’” —Gloria Ladson-Billings, Kellner Family Chair in Urban Education, University of Wisconsin–Madison “This book is a bold, ambitious attempt to chart new intellectual, theoretical, and pedagogical directions for Hip-Hop Based Education. Hill and Petchauer are to be commended for pushing the envelope and stepping up to the challenge of taking HHBE to the next level.” —Geneva Smitherman, University Distinguished Professor Emerita, English and African American and African Studies, Michigan State University

Speaking my Soul John Russell Rickford 2021-12-29 Speaking My Soul is the honest story of linguist John R. Rickford’s life from his early years as the youngest of ten children in Guyana to his status as Emeritus Professor of Linguistics at Stanford, of the transformation of his identity from colored or mixed race in Guyana to black in the USA, and of his work championing Black Talk and its speakers. This is an inspiring story of the personal and professional growth of a black scholar, from his life as an immigrant to the USA to a world-renowned expert who has made a leading contribution to the study of African American life, history, language and culture. In this engaging memoir, Rickford recalls landmark events for his racial identity like being elected president of the Black Student Association at the University of California, Santa Cruz; learning from black expeditions to the

South Carolina Sea Islands, Jamaica, Belize and Ghana; and meeting or interviewing civil rights icons like Huey P. Newton, Rosa Parks and South African Dennis Brutus. He worked with Rachel Jeantel, Trayvon Martin's good friend, and key witness in the trial of George Zimmerman for his murder—Zimmerman's exoneration sparked the Black Lives Matter movement. With a foreword by poet John Agard, this is the account of a former Director of African and African American Studies whose work has increased our understanding of the richness of African American language and our awareness of the education and criminal justice challenges facing African Americans. It is key reading for students and faculty in linguistics, mixed race studies, African American studies and social justice.

Languages and Dialects in the U.S. Marianna Di Paolo 2014-03-05 Languages and Dialects in the U.S. is a concise introduction to linguistic diversity in the U.S. for students with little to no

background in linguistics. The goal of the editors of this collection of fourteen chapters, written by leading experts on the language varieties discussed, is to offer students detailed insight into the languages they speak or hear around them, grounded in comprehensive coverage of the linguistic systems underpinning them. The book begins with "setting the stage" chapters, introducing the sociocultural context of the languages and dialects featured in the book. The remaining chapters are each devoted to particular U.S. dialects and varieties of American English, each with problem sets and suggested further readings to reinforce basic concepts and new linguistic terminology and to encourage further study of the languages and dialects covered. By presenting students with both the linguistic and social, cultural, and political foundations of these particular dialects and variations of English, Languages and Dialects in the U.S. is the ideal text for students interested in linguistic diversity in the U.S., in

introductory courses in sociolinguistics, language and culture, and language variation and change.

Crossing Borders, Making Connections Allison Burkette 2021-01-18 This edited volume explores the scope of interdisciplinary linguistics and includes voices from scholars in different disciplines within the social sciences and humanities, as well as different sub-disciplines within linguistics. Chapters within this volume offer a range of perspectives on interdisciplinary studies, represent a connection between different disciplines, or demonstrate an application of interdisciplinarity within linguistics. The volume is divided into three

sections: perspectives, connections, and applications. Perspectives The goal of this section is to address more generally the definition(s) of and value of multi-, trans-, and inter-disciplinary work. In what areas and for what purposes is there a need for work that crosses discipline boundaries? What are the challenges of undertaking such work? What opportunities are available? Connections This section features paired chapters written by scholars in different disciplines that discuss the same concept/idea/issue. For example, a discussion of how "assemblage" works in archaeology is paired with a discussion of how "assemblage" can be used to talk about 'style' in linguistics. Applications This section can be framed as sample answers to the question: What does interdisciplinarity look like?

African American Women's Language Sonja L. Lanehart 2020-06-12 African American Women's Language: Discourse, Education, and Identity is a groundbreaking collection of research on African American Women's Language that is long overdue. It brings together a range of research including variationist, autoethnography, phenomenological, ethnographic, and critical. The authors come from a variety of disciplines

(e.g., Sociology, African American Studies, Africana Studies, Linguistics, Sociophonetics, Sociolinguistics, Anthropology, Literacy, Education, English, Ecological Literature, Film, Hip Hop, Language Variation), scientific paradigms (e.g., critical race theory, narrative, interaction, discursive, variationist, post-structural, and post-positive perspectives), and inquiry methods (e.g., quantitative, qualitative, ethnographic, and multimethod) while addressing a variety of African American female populations (e.g., elementary school, middle school, adults) and activity settings (e.g., classrooms, family, community, church, film). Readers will get a good sense of the language, discourse, identity, community, and grammar of African American women. The essays provide the most current research on African American Women's Language and expand a literature that has too often only focused on male populations at the expense of letting the sistas speak.
The Cambridge Handbook of World Englishes

This Handbook provides a comprehensive and authoritative survey of World Englishes from 1600 to the present day. Covering topics such as variationist sociolinguistics, pragmatics, contact linguistics, linguistic anthropology, corpus- and applied linguistics and language history, it combines discussion of traditional topics with a variety of innovative approaches. current challenges.

My Soul Look Back in Wonder Geneva Napoleon Smitherman 2022-01-31 This is the story of Dr. Geneva Smitherman, aka "Dr. G," the pioneering linguist often referred to as the "Queen of Black Language." In a series of narrative essays, Dr. G writes eloquently and powerfully about the role of language in social transformation and the academic, intellectual,

linguistic, and societal debates that shaped her groundbreaking work as a Black Studies O.G. and a Womanist scholar-activist of African American Language. These eleven essays narrate the development of Dr. G's race, gender, class, and linguistic consciousness as a member of the Black Power Generation of the 1960s and 70s. In *My Soul Look Back In Wonder*, Dr. G links the personal to the professional and the political, situating the struggles, and successes, of a Black woman in the Academy within the historical experiences and development of her people. As Dr. G enters her eighth decade, in this Black Lives Matter historical moment, she seeks to share the meaning and purpose of a life of study and struggle and its significance for all those who seek racial and social justice today.

Samy Alim 2004 The 2004 Publication of the American Dialect Society, You Know My Steez is the culmination of nearly four years of direct study and hands-on experience by a teacher-researcher and active community member in the working-class suburb of Sunnyside, California. Focusing on the language and linguistic practices of students at Haven High School, an ethnically and linguistically diverse school, the author examines both the internal linguistic constraints and the external social constraints (race, gender, and cultural literacy, among others) that shape speech styles, particularly among Black male and female hoppers. Contributing to the

development of a more refined methodological approach to the study of linguistic styleshifting, the author integrates the study of sociolinguistic variation, interactional analysis (the use of discourse analysis to examine the implicit rules and roles that govern social interaction), and ethnographic fieldwork to develop a deeper understanding of how, when, and why speakers shift their styles.

Word from the Mother Geneva Smitherman

2021-11-26 This classic text by Geneva

Smitherman, pioneering scholar of Black Talk, is a definitive statement on African American Language (AAL). Enriched by her inimitable writing style, the book outlines past debates on the speech of African Americans and provides a vision for the future. As global manifestations of AAL increase, she argues that we must broaden our conception of the language and its speakers, and further examine the implications of gender, age and class on AAL. Perhaps most of all we

must appreciate the "artistic and linguistic genius" of AAL, from Hip Hop lyrics to the rhyme and rhetoric of the broader Black speech community. Smitherman explores AAL's contribution to American English, includes a summary of expressions as a suggested linguistic core of AAL, and features cartoons that educate readers on the broader relationship between language, race, and racism. This classic edition features a new foreword by H. Samy Alim, celebrating Smitherman's continuing impact on Black Language scholarship and her influence on the future of the field. *Word from the Mother* is an essential read for students of African American speech, language, culture and sociolinguistics, as well as the general reader interested in the worldwide "crossover" of Black popular culture.

African American Language Mary Kohn

2020-12-03 From birth to early adulthood, all aspects of a child's life undergo enormous development and change, and language is no

exception. This book documents the results of a pioneering longitudinal linguistic survey, which followed a cohort of sixty-seven African American children over the first twenty years of life, to examine language development through childhood. It offers the first opportunity to hear what it sounds like to grow up linguistically for a cohort of African American speakers, and provides fascinating insights into key linguistics issues, such as how physical growth influences pronunciation, how social factors influence language change, and the extent to which individuals modify their language use over time. By providing a lens into some of the most foundational questions about coming of age in African American Language, this study has implications for a wide range of disciplines, from speech pathology and education, to research on language acquisition and sociolinguistics.

Sista, Speak! Sonja L. Lanehart 2010-01-01 The demand of white, affluent society that all Americans should speak, read, and write

"proper" English causes many people who are not white and/or middle class to attempt to "talk in a way that feel peculiar to [their] mind," as a character in Alice Walker's *The Color Purple* puts it. In this book, Sonja Lanehart explores how this valorization of "proper" English has affected the language, literacy, educational achievements, and self-image of five African American women—her grandmother, mother, aunt, sister, and herself. Through interviews and written statements by each woman, Lanehart draws out the life stories of these women and their attitudes toward and use of language. Making comparisons and contrasts among them, she shows how, even within a single family, differences in age, educational opportunities, and social circumstances can lead to widely different abilities and comfort in using language to navigate daily life. Her research also adds a new dimension to our understanding of African American English, which has been little studied in relation to women.

The Routledge Companion to the Work of John R. Rickford Renée Blake 2019-09-17 This comprehensive collection is the first full book-length volume to bring together writing focused around and inspired by the work of John Rickford and his role in sociolinguistic research over the last four decades. Featuring contributions from more than 40 leading scholars in the field, the volume integrates both historical and current perspectives on key topics in Rickford's body of work at the intersection of language and society, highlighting the influence of his work from diverse fields such as sociolinguistics, stylistics, creole studies, and language and education. The volume is organized around four sections, each representing one of the fundamental strands in Rickford's scholarship over the course of his career, bookended by short vignettes that feature stories from the field to more broadly contextualize his intellectual legacy: • Language

contact from a sociolinguistic and sociohistorical point of view • The political ramifications of linguistic heterogeneity • The stylistic implications of language variation and change • The educational implications of linguistic heterogeneity and social injustice Taken together, *The Routledge Companion to the Work of John R. Rickford* serves as a platform to showcase Rickford's pioneering contributions to the field and, in turn, to socially reflective linguistic research more generally, making this key reading for students and researchers in sociolinguistics, creole studies, language and style, and language and education.
