Islam and Christianity John Renard
2011-03-08 In light of the widespread public perception of incompatibility between Islam and Christianity, this book provides a much-needed straightforward comparison of these two great faith traditions from a broad theological perspective. Award-winning scholar John Renard illuminates the similarities as well as the differences between Islam and Christianity through a clear exploration of four major dimensions—historical, creedal, institutional, and ethical and spiritual. Throughout, the book features comparisons between concrete elements such as creedal statements, prayer texts, and writings from major theologians and mystics. It also includes a glossary of technical theological terms. For western readers in particular, this balanced, authoritative work overturns some common stereotypes about Islam, especially those that have emerged in the decade since September 11, 2001.

Proclaiming Holy Scriptures David H. Pereyra
2020-12-30 This book provides a comprehensive study on the proclamation of Holy Scriptures as an enacted celebration, as well as its function as a performance within sacralized theatrical spaces. Scripture is integral to religious life within Judaism, Christianity, and Islam, and these traditions have venerated the reading of texts from an appointed place as a sacred act. Thus, the study of how these readings are conducted illuminates some vitally important

aspects of this widespread act of worship. Contributing to an underexplored area of scholarship, the book offers an overview of scripture reading in the three Abrahamic faiths and then focuses on where and how the “Word of God” is presented within the Christian tradition. It gathers and summarizes research on the origins of a defined place for the proclamation of holy writings, giving a thorough architectural analysis and interpretation of the various uses and symbols related to these spaces over time. Finally, the listener is considered with a phenomenological description of the place for reading and its hermeneutical interpretation. The material in this book uncovers the contemporary impact of a rich history of publicly reading out scriptures. It will, therefore, be of great interest to scholars of liturgical theology, religious studies, and ritual studies.

God's Gift Giving R. Kevin Seasoltz 2007-05-01
Hans Urs von Balthasar once said that theology should be done on one's knees, suggesting that the attitude it should create in the reader or hearer is one of adoration and praise for the divine mystery. Few contemporary theologians achieve this effect, but here Kevin Seasoltz comes close. This book is a profound but simply written mediation on the central mysteries of the Christian faith—the trinity, redemption, the eucharist, human participation in the divine life and solidarity with one another—in a contemporary idiom. It begins with the notion of gift giving, which ever since Marcel Mauss's

Essai sur le don has been the subject of intense discussion among ethicists, cultural anthropologists, and political scientists, as well as among philosophers like Jacques Derrida and theologians like Jean-Luc Marion. Seasoltz takes up these contemporary notions of gift giving and teases out various facets of the divine gifts of word and sacrament, of the Spirit, of communion and community. As Seasoltz says in one summary sentence: "The mystery of the Trinity is made accessible to us above all in the eucharist, for it is there in a special and ongoing way that we are drawn into the very life of God and into the lives of each other."

Icons and the Liturgy, East and West Nicholas Denysenko 2017-11-15 *Icons and the Liturgy, East and West: History, Theology, and Culture* is a collection of nine essays developed from papers presented at the 2013 Huffington Ecumenical Institute's symposium "Icons and Images," the first of a three-part series on the history and future of liturgical arts in Catholic and Orthodox churches. Catholic and Orthodox scholars and practitioners gathered at Loyola Marymount University to present papers discussing the history, theology, ecclesiology, and hermeneutics of iconology, sacred art, and sacred space in the Orthodox and Catholic traditions. Nicholas Denysenko's book offers two significant contributions to the field of Eastern and Western Christian traditions: a critical assessment of the status of liturgical arts in postmodern Catholicism and Orthodoxy and an analysis of the continuity with tradition in creatively engaging the creation of sacred art and icons. The reader will travel to Rome, Byzantium, Armenia, Chile, and to other parts of the world, to see how Christians of yesterday and today have experienced divine encounters through icons. Theologians and students of theology and religious studies, art historians, scholars of Eastern Christian Studies, and Catholic liturgists will find much to appreciate in these pages. Contributors: Nicholas Denysenko, Robert Taft, S.J., Thomas M. Lucas, S.J., Bissera V. Pentcheva, Kristin Noreen, Christina Maranci, Dorian Llywelyn, S.J., Michael Courey, and Andriy Chirovsky.

Studying Christian Spirituality David B. Perrin 2007-08-07 This book provides a new introduction to the study of Christian spirituality,

exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology, history, sociology and anthropology. Systematic and progressive, it introduces the key approaches and shows how they relate to the understanding, study and practice of spirituality. Covering a vast amount of ground - from traditional themes such as images of God, spiritual direction and pilgrimage to more contemporary issues, such as place and space, cyberspace and postcolonialism - the author takes an ecumenical, inclusive stance, allowing the book to be used in a wide variety of courses and across denominations.

Communicating Faith John Sullivan 2011 This book enriches appreciation of the many ways that Christian faith is communicated. It casts light on the sensitivities, skills, and qualities necessary for the effective communication of faith, where justice is done both to the "seed" to be sown and to the "soil" being cultivated.

The Lion Companion to Church Architecture David Stancliffe 2008 The fascinating role of architecture and buildings in Christian history
God's Gift Giving R. Kevin Seasoltz 2007-05 This book is a profound but simply written mediation on the central mysteries of the Christian faith: the trinity, redemption, the eucharist, human participation in the divine life and solidarity with one another in a contemporary idiom.

An Architecture of Ineloquence J.K. Birksted 2016-12-05 Set on a hillside near Cluny, in a region associated with religious institutions and sacred architecture (including Le Corbusier's La Tourette), Le Carmel de la Paix, designed by José Luis Sert, remains tranquilly unvisited and

quietly erased from architectural history. Why? This unusual convent falls outside the standard categories of Sert's architecture and has been overlooked in most publications about his work. As J.K. Birksted explains, the design and construction process for this building proved nightmarish, resulting in a building which, at first sight, appears to be 'ineloquent'. This first detailed examination of this building shows how the convent and the story of its creation offer valuable and important new insights into Sert, his architecture and his life. However, the study also opens up discussions on wider subjects such as the relationships between modernist architecture and ecclesiastical architecture. The design and construction of the Carmel de la Paix (1968-1972) followed the Second Ecumenical Council of the Vatican (1962-1965), which introduced fundamental changes and proposals for renewing the relationship between the Church and the changing modern world and the convent provides an interesting illustration of this period. In addition, it offers insights into the fascinating world of the Carmelite order and its specific liturgical requirements, and, reflecting on the nuns' active involvement in the design and construction process, it also explores wider issues of women in architecture.

Embodied Liturgy Frank C. Senn 2016-06-01 Embodied Liturgy marks a "return to the body" in thinking about Christian liturgy and

sacramental practice. Rooted in phenomenology and incarnational theology, the book gives primary focus to the body as it considers the prayer offices and the liturgical calendar, sacrifices and sacraments, initiation and vestments, ritual theory and play, word and meal, fasting and feasting, penance and celebration, rites of passage, cultural perspectives, and the role of art, music, dance, and drama in worship. The author invites readers to return to the experience of their own body through guided yogic exercises. As a text for students and liturgical practitioners, the volume gives fresh voice to the experience and practice of worship as bodily acts. Embodied Liturgy is a dynamic, accessible new resource in liturgical and sacramental theology from one of the premiere scholars in the field. Frank C. Senn distills an established legacy of expertise in an innovative and inviting perspective on bodily acts of worship.

Religion Index One 2006

Sacred Power, Sacred Space Jeanne Halgren Kilde 2008-07-21 Jeanne Halgren Kilde's survey of church architecture is unlike any other. Her main concern is not the buildings themselves, but rather the dynamic character of Christianity and how church buildings shape and influence the religion. Kilde argues that a primary function of church buildings is to represent and reify three different types of power: divine power, or ideas about God; personal empowerment as manifested in the individual's perceived relationship to the divine; and social power, meaning the relationships between groups such as clergy and laity. Each type intersects with notions of Christian creed, cult, and code, and is represented spatially and materially in church buildings. Kilde explores these categories chronologically, from the early church to the twentieth century. She considers the form, organization, and use of worship rooms; the location of churches; and the interaction between churches and the wider culture. Church buildings have been integral to Christianity, and Kilde's important study sheds new light on the way they impact all aspects of the religion. Neither mere witnesses to transformations of religious thought or nor simple backgrounds for religious practice, church buildings are, in Kilde's view, dynamic participants in religious

change and goldmines of information on Christianity itself.

Church Alive! Greg Dening 2006 Here the author has turned his anthropological, theological, historical and philosophical education, as well as his personal experience, to writing the living history of three Jesuit parishes on the North Shore of Sydney Harbour for the years 1956 to 2006. This book is an ethnographic history of the prophetic imagination among ordinary believers in times of great religious change. It is a narrative about behavior, symbols, rituals, sacred spaces, sacred times, that tells of the cultural system within them. The broader context of post-Vatican II Catholicism and a religion that led the community to this point in time is the backdrop.

Vatican Council II Elizabeth Harrington 2013-08-31 Sacrosanctum Concilium opened the door to all Christians to understand the contemporary challenge to their life and health, and it started with the reform of the liturgy. In the words of Paul VI the liturgy is the 'first source of life communicated to us, the first school of our spiritual life, the first gift we can give to Christian people by our believing and praying, and the first invitation to the world.' That is surely true for all of us.

Icons in the Western Church Jeana Visel 2016-09-06 Within the Eastern tradition of Christianity, the eikon, or religious image, has long held a place of honor. In the greater part of Western Christianity, however, discomfort with images in worship, both statues and panel icons, has been a relatively common current, particularly since the Reformation. In the Roman Catholic Church, after years of using religious statues, the Second Vatican Council's call for "noble simplicity" in many cases led to a stripping of images that in some ways helped refocus attention on the eucharistic celebration itself but also led to a starkness that has left many Roman Catholics unsure of how to interact with the saints or with religious images at all. Today, Western interest in panel icons has been rising, yet we lack standards of quality or catechesis on what to do with them. This book makes the case that icons should have a role to play in the Western Church that goes beyond mere decoration. Citing theological and ecumenical reasons, Visel argues that, with

regard to use of icons, the post-Vatican II Roman Catholic Church needs to give greater respect to the Eastern tradition. While Roman Catholics may never interact with icons in quite the same way that Eastern Christians do, we do need to come to terms with what icons are and how we should encounter them.

The Turn to Transcendence Glenn W. Olsen 2012-07-30 "Phenomenal . . . A must read for us who desire to topple the dictatorship of relativism and culture of death and replace it with the only alternative" (The Imaginative Conservative). Especially concerned with the public nature of religion, historian Glenn W. Olsen—author of *Christian Marriage: A Historical Study* and *On the Road to Emmaus: The Catholic Dialogue with American and Modernity*—sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period. *The Turn to Transcendence* traces both the loss of transcendence and attempts to recover it while making its own proposals. Neither reactionary nor modernist, it questions how—under conditions of modern life—some form of the sacred and some form of the secular might both flourish at the same time. But it also provides a warning that a religion unable to maintain itself with its own overt architecture, language, and calendars against an enveloping secular culture is destined for oblivion. "Glenn Olsen's book could hardly be more pivotal or insightful. Confronting the growing amnesia regarding culture's religious origin and transcendent purpose, Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves." —Carl A. Anderson, Supreme Knight of the Knights of Columbus "A brilliant book. It rests on an amazing amount of scholarship that is wide-ranging in history, literature, art, science, music, theology, and philosophy." —James Hitchcock, professor of history, St. Louis University

An Architecture of Immanence Mark A. Torgerson 2007-01-22 Torgerson begins by discussing God's transcendence and immanence and showing how church architecture has traditionally interpreted these key concepts. He then traces the theological roots of immanence's priority from liberal theology and liturgical

innovation to modern architecture. Next, Torgerson illustrates this new architecture of immanence through particular practitioners, focusing especially on the work of theologically savvy architect Edward Anders Sövik. Finally, he addresses the future of church architecture as congregations are buffeted by the twin forces of liturgical change and postmodernism.

SCM Studyguide: Liturgy, 2nd Edition
Stephen Burns 2018-09-07 The *SCM Studyguide: Liturgy, 2nd Edition* is an introduction to liturgy that considers the basic 'building blocks' needed to grasp the subject area. It outlines the essential shape and content of Christian worship and explores a range of liturgical dynamics of which both students of liturgy and leaders of liturgy need to be aware. This 2nd edition of the popular Studyguide is fully revised, updated and expanded. The book takes account of new developments in scholarship, engages with new contexts for liturgical celebration (notably, fresh expressions as part of a mixed economy of church), encompasses recent revisions in liturgy and seeks to broaden the engagement beyond the British context to consider the wider global context.

Through the Dark Field Susie Paulik Babka
2017-01-13 Theological discourse in the West

has consistently valued the word over the image. Aesthetics, which discerns the criteria and value of the beautiful and what "pleases the senses," is the discipline that prioritizes sensual intelligence over the rational; this book advocates a reconsideration of the doctrine of the incarnation through an aesthetics of vulnerability, in which the ethical optics of attention to the vulnerable other becomes the standpoint in which to ponder the significance of "God became human." Relying on such diverse thinkers as Emmanuel Levinas, Maurice Blanchot, Karl Rahner, and Masao Abe, Susie Paulik Babka explores visual art, images, and poetry as theological sources, designating what Blanchot called "a region where impossibility is no longer deprivation, but affirmation."

The Church Frederick J. Cwiekowski
2018-04-23 The historical context in which theological understandings have developed play an important role in our understanding of the modern church. In this book, Sulpician priest and scholar Frederick J. Cwiekowski traces the theology of the church, beginning with the community of disciples during Jesus' ministry and the New Testament era. He continues through the various periods of history, highlighting events from both the East and West, including the remarkable developments surrounding the Second Vatican Council, the post-conciliar period, and today's pontificate of Pope Francis. With this book, intended for general readers and students of theology, Cwiekowski hopes to promote an appreciation of the mystery that is the church.

The Meaning of Christian Liturgy Oloph Bexell
2012-08-17 The Church of Sweden is the largest Lutheran church body in the world, with 6.5 million members that represent about 70% of the Swedish population. *The Meaning of Christian Liturgy* illuminates and explains the changes that have occurred in the liturgy of the Church of Sweden from 1980 to 2000. In the process, this volume asks a number of questions of immense importance not only within Sweden but also for Christian churches in the English-speaking world, including: How does participation in a liturgy make clear what "church" is about? What does liturgical participation say about who or what God is and about the community's encounter with God?

How have churches lived with the changes and renewals introduced in the twentieth century? How does the church building shape worshippers' ideas of God and of church? Contributors: Torbjörn Axner Oloph Bexell Sven-Erik Brodd, Gordon W. Lathrop Karin Oljelund Boel Hssjer Sundman Gunnar Weman

The Use of Symbols in Worship Christopher

Irvine 2007 In our post-modern, technological and visual age, there seems to be a new fascination with symbols. And in such an age as this, it is not enough just to understand and use the written liturgy, whether old or new, like Common Worship. In worship and in our pastoral rites, the preoccupation with texts has to be balanced with the vital liturgical language of symbols. Never before has there been such scope for the use of symbols as can be found in the family of Common Worship services. Not simply visual aids, liturgical symbols are suggestive and evocative; they belong to a whole matrix of imagery in Scripture and in the prayer texts that accompany the ritual acts of worship. Each chapter of Symbols and Worship provides theological and historical background to the symbols discussed (water, oil, light and incense), as well as practical guidance on the place and use of these symbols in the whole range of Common Worship services.

Monastic Ecological Wisdom Samuel Torvend 2023-11-15 Can early medieval monasteries serve as a model of sustainable development and environmental conservation in today's world? Inspired by Pope Francis's encyclical *Laudato Si* and Benedictine communities around the world whose shared monastic values inform ecological practice, *Monastic Ecological Wisdom* uncovers the hidden story of early Christian and monastic care for the earth. In *Monastic Ecological Wisdom*, Samuel Torvend shows how it is possible that medieval monastic values and practices could assist in the careful conservation of what we claim is God's first gift, God's first gesture of grace: the earth and all that dwells with it. By reflecting on an ecological reading of New Testament texts, the Rule of St. Benedict, and early monastic engagement with the natural world as seen in the life of St. Benedict, such practices can serve thoughtful Christians today who care deeply about living in harmony with the earth and all who call it home.

In the Shadow of Ebenezer Leah Mickens 2022-12-13 Uncovers how the Civil Rights Movement and Vatican II affected African American Catholics in Atlanta The history and practices of African American Catholics has been vastly understudied, and Black Catholics are often written off as a fringe sector of the religious population. Yet, Catholics of African

descent have been a part of Catholicism since the early days of European exploration into the New World. In *In the Shadow of Ebenezer* examines how the Civil Rights Movement and the Second Vatican Council affected African American Catholics in Atlanta, Georgia, focusing on the historic Our Lady of Lourdes Catholic Church in the Old Fourth Ward. Our Lady of Lourdes is a neighbor of major historic Black Protestant churches in the city, including Ebenezer Baptist Church, a block away, which during the Civil Rights era was the pulpit of Martin Luther King Jr. Featuring archival and oral history sources, the book examines the religious and cultural life of the parishioners of Our Lady of Lourdes Catholic Church, showing how this Black Catholic congregation fit into the overall religious ecology of the neighborhood. Examining Our Lady of Lourdes in relation to these larger Black Protestant congregations helps to illuminate whether and how they were shaped by their place at a center of the civil rights struggle, and how religious change and social change intersect.
