Kumba Africa Sampson Ejike Odum 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented

writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

KARATE-DO: Traditional Training for all Styles, 2Ed. Kevin Seiler 2009

Hollywood Highbrow Shyon Baumann 2007-10-14 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an

appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

From Unincorporated Territory [Āmot] Craig Santos Perez 2023-04-05 Experimental and visual poems diving into the history and culture of the poet's homeland, Guam. This book is the fifth collection in Craig Santos Perez's ongoing from unincorporated territory series about the history of his homeland, the western Pacific island of Guåhan (Guam), and the culture of his indigenous Chamoru people. "Āmot" is the Chamoru word for "medicine," commonly referring to medicinal plants. Traditional Chamoru healers were known as yo'āmte; they gathered āmot in the jungle and recited chants and invocations of taotao'mona, or ancestral spirits, in the healing process. Through experimental and visual poetry, Perez explores how storytelling can become a symbolic form of āmot, offering healing from the traumas of colonialism, militarism, migration, environmental injustice, and the death of elders.

100 Recipes America's Test Kitchen 2015-10-13
A provocative, handpicked collection of relevant (and surprising) essential recipes for today's cook. We have countless recipes at our disposal today but what are the real keepers, the ones that don't just feed us when we're hungry or impress our friends on Saturday night, but inspire us to get into the kitchen? At the forefront of American cooking for more than 20 years, the editors at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else:
100 Recipes Everyone Should Know How to

Make. Organized into three recipe sections—Absolute Essentials, Surprising Essentials, and Global Essentials—each recipe is preceded by a thought-provoking essay that positions the dish. For example, Treating Pasta Like Rice Simplifies Everything; A Covered Pot Is a Surprisingly Good Place to Roast a Chicken; and Re-imagine Pie in a Skillet to Simplify the Process. You'll find useful workday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff; genius techniques for producing amazing flavor—try poaching chicken breasts over a garlic-and-soy-spiked brine (trust us, it's that good); and familiar favorites reinvigorated—the best beef stew comes from Spain (and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography (shot right in the test kitchen) accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, 100 Recipes Everyone Should Know How to Make provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen. Conquered Paula Quinene 2016-07-07 Groomed to become the people's medicine woman, smart and resourceful Jesi Taimanglo has been hiding in a cave in Guam, hoping to escape Japanese treachery during WWII. Having noticed more frequent and louder bombs on the eve of July 21, 1944, Jesi realizes the Americans are finally rescuing her people. Instead of waiting for her family to come for her, she leaves her hideout to find them. She is caught by the enemy, but the American who soon rescues her appears just as threatening. Blaming himself for the death of his beloved, Johan Landers enlisted in the US Army in February 1942, and ends up in the middle of the war on Guam. Hell-bent on putting himself in harm's way, a marauding airplane blows him from his platoon. Awakened by terrified screams, Johan is enraged to find a native girl pinned by three Japanese soldiers in a nearby shack. Ignoring his injuries, he eliminates her attackers, one by one. Jesi is expected to marry a Chamorro man, but the one who's awakening

sensations in her heart and body is not a man of her own race. Still grieving, Johan has vowed to keep his heart closed forever yet the girl that patched him up, with her strange eyes and beautiful smile, has crept into the deepest place of his heart. Unable to resist forbidden passion, Johan and Jesi must hide their growing attraction. As time nears for Johan to ship out, they must choose between their love for each other, and their duty to those that rule them.

Unchained Mind Ricardo G. Williams 2017-03-15

I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinkingchains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought

control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions, embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.
