*Against the Wind* Kat Martin

2018-07-16 A fan-favorite story by New York Times bestselling

author Kat Martin, originally published in 2011. Sarah Allen burned a lot of bridges when she left her hometown. But when her husband is murdered and his associates come looking for her and her daughter, Sarah has only one place left to go—Wind Canyon, Wyoming. She runs right into Jackson Raines, the man she spurned in high school, who has now become a successful ranch owner. She expects anger from him, but instead she gets mercy. Jackson knows Sarah and her daughter, Holly, are in trouble, and he can't turn them away. He's never forgotten the beautiful girl he could never have, and she's more alluring now than she ever was in high school. So when Sarah's enemies show up in Wind Canyon, Jackson is determined to protect Sarah and Holly, and prove to them that they've finally found their way home.

PLAY. We all do it: wordplay, love play, role-play; we play cards, play sport, play the fool, and play around. And that's just the grown-ups! It features in every aspect of our lives, whether we call it by that or another name. We all do it, but why do we do it? What does it mean to play and what, if any,

difference does it make to our lives? Most crucially, and central to the theme of this book, is the question, 'Does play have a positive impact on our health and wellbeing, and consequently a role in modern healthcare delivery?' The contributors to this book provide a comprehensive overview of how play and play-based activities can be used throughout the adult lifespan to promote health and wellbeing within the context of healthcare service delivery for patients, their families and communities, and for the staff involved in their care. Responding to current global health concerns such as obesity, coronary heart disease, dementia and mental health, the book argues that play and playfulness offer a means of protection, promotion and recovery of positive health and wellbeing. The human tendency for play and playfulness as essential to personal growth and development lie at the heart of the discussion. This book will be of interest to all those

working in health or social care settings, including nursing, social work and allied health students and professionals and those working within the therapeutic disciplines of art therapy, music therapy, and recreation alliances.

Days of Darkness John Pearce  
1994-11-15 " Among the darkest corners of Kentucky's past are the grisly feuds that tore apart the hills of Eastern Kentucky from the late nineteenth century until well into the twentieth. Now, from the tangled threads of conflicting testimony, John Ed Pearce, Kentucky's best known journalist, weaves engrossing accounts of six of the most notorious accounts to uncover what really happened and why.

His story of those days of darkness brings to light new evidence, questions commonly held beliefs about the feuds, and us and long-running feuds—those in Breathitt, Clay Harlan, Perry, Pike, and Rowan counties. What caused the feuds that left Kentucky with its lingering reputation for violence? Who were the feudists, and what forces—social, political, financial—hurled them at each other? Did Big Jim Howard really kill Governor William Goebel? Did Joe Eversole die trying to protect small mountain landowners from ruthless Eastern mineral exploiters? Did the Hatfield-McCoy fight start over a hog? For years, Pearce has interviewed descendants of feuding families and examined skimpy court records and often fictional newspaper reports to rest some of the more popular legends.

**Exposing the Spiritual Roots of Disease**

Henry W. Wright  
2019-10-15 A Thoroughly  
Biblical and Compelling Case  
for Healing from the Best-  
Selling Author of A More  
Excellent Way Over thirty  
years ago, Dr. Henry Wright  
experienced major success in  
praying for people to be healed  
from disease. But suddenly the  
healing stopped. He began  
asking God why people weren't  
being healed. Through a  
pursuit of God's Word and  
truth, he began a lifelong  
journey of learning the  
spiritual roots of disease and  
blockages to healing. In this  
journey, he discovered that  
about 80 percent of all disease  
has a spiritual root issue and is  
a direct result of a breakdown  
in our relationship with God,  
ourselves, or others. Dr. Wright  
began teaching the biblical  
principles and truths he  
discovered and found great  
success in people's healing and  
recovery. He helped tens of  
thousands to experience  
wholeness in their lives. Every  
human being is a spirit with a  
soul living in a body. Therefore,

this is not just about our  
physical health, although it  
greatly impacts our bodily well-  
being. It is about our identity in  
God and the freedom He  
desires to give us, extending  
from our spirits to our souls  
and bodies. In this book, Dr.  
Wright presents a thoroughly  
biblical and compelling case for  
healing. If you think you've  
read all you need to know  
about healing, it's time to take  
another look! The author  
clearly shows that disease is  
not a random occurrence and  
that science and medicine have  
their limitations in dealing with  
the spiritual roots of illnesses  
that inflict millions. We need  
healing for spirit, soul, and  
body. If you have recently been  
diagnosed with an illness or  
have been struggling with your  
health for years, there is hope  
and healing ahead. "I am so  
thankful about these physical  
healings. However, I'm even  
more thankful for the inner  
peace and faith that I have  
been experiencing. [They are]  
beyond description." —Sue

**High Crimes** Michael Kudas 2008-02-05 High Crimes is journalist Michael Kudas's gripping account of life on top of the world--where man is every bit as deadly as Mother Nature. In the years following the publication of Into Thin Air, much has changed on Mount Everest. Among all the books

documenting the glorious adventures in mountains around the world, none details how the recent infusion of wealthy climbers is drawing crime to the highest place on the planet. The change is caused both by a tremendous boom in traffic, and a new class of parasitic and predatory adventurer. It's likely that Jon Krakauer would not recognize the camps that he visited on Mount Everest almost a decade ago. This book takes readers on a harrowing tour of the criminal underworld on the slopes of the world's most majestic mountain. High Crimes describes two major expeditions: the tragic story of Nils Antezana, a climber who died on Everest after he was abandoned by his guide; as well as the author's own story of his participation in the Connecticut Everest Expedition, guided by George Dijmarescu and his wife and climbing partner, Lhakpa Sherpa. Dijmarescu, who at first seemed well-intentioned and charming, turned increasingly hostile to his own

wife, as well as to the author and the other women on the team. By the end of the expedition, the three women could not travel unaccompanied in base camp due to the threat of violence. Those that tried to stand against the violence and theft found that the worst of the intimidation had followed them home to Connecticut. Beatings, thefts, drugs, prostitution, coercion, threats, and abandonment on the highest slopes of Everest and other mountains have become the rule rather than the exception. Kodas describes many such experiences, and explores the larger issues these stories raise with thriller-like intensity.

*Textbook of Plastic and Reconstructive Surgery* Deepak K. Kalaskar 2016-08-02 Written by experts from London's renowned Royal Free Hospital, *Textbook of Plastic and Reconstructive Surgery* offers a comprehensive overview of the vast topic of reconstructive plastic surgery and its various subspecialties for introductory plastic surgery and surgical

science courses. The book comprises five sections covering the fundamental principles of plastic surgery, cancer, burns and trauma, paediatric plastic surgery and aesthetic surgery, and covers the breadth of knowledge that students need to further their career in this exciting field. Additional coverage of areas in which reconstructive surgery techniques are called upon includes abdominal wall reconstruction, ear reconstruction and genital reconstruction. A chapter on aesthetic surgery includes facial aesthetic surgery and blepharoplasty, aesthetic breast surgery, body contouring and the evolution of hair transplantation. The broad scope of this volume and attention to often neglected specialisms such as military plastic surgery make this a unique contribution to the field. Heavily illustrated throughout, *Textbook of Plastic and Reconstructive Surgery* is essential reading for anyone interested in furthering their knowledge of this exciting

field. This book was produced as part of JISC's Institution as e-Textbook Publisher project. Find out more at <https://www.jisc.ac.uk/rd/projects/institution-as-e-textbook-publisher>

"Chambers had a gift for language....to call Chambers an activist or Witness a political event is to say Dostoevsky was a criminologist or Crime and Punishment a morality tract." - WASHINGTON POST  
"Chambers was not just the witness against Alger Hiss, but was also one of the articulators of the modern conservative philosophy, a philosophy that has something to do with restoring the spiritual values of politics." - SAM TANENHAUS, author of Whittaker Chambers  
"One of the few indispensable autobiographies ever written by an American - and one of the best written, too." - HILTON KRAMER, The New Criterion First published in 1952, Witness is the true story of Soviet spies in America and the trial that captivated a nation. Part literary effort, part philosophical treatise, this intriguing autobiography recounts the famous Alger Hiss case and reveals much more. Chambers' worldview and his belief that "man without mysticism is a monster" went

on to help make political conservatism a national force. Regnery History's Cold War Classics edition is the most comprehensive version of Witness ever published, featuring forewords collected from all previous editions, including discussions from luminaries William F. considerations such as drainage, vibration and noise control, and environmental monitoring; and specialized facilities for animal housing and research needs. The Guide for the Care and Use of Laboratory Animals provides a framework for the judgments required in the management of animal facilities. This updated and expanded resource of proven value will be important to scientists and researchers, veterinarians, animal care personnel, facilities managers, institutional administrators, policy makers involved in research issues, and animal welfare advocates.

**Mad in America** Robert Whitaker 2001-12-14 In *Mad in America*, medical journalist Robert Whitaker reveals an astounding truth: Schizophrenics in the United States fare worse than those in poor countries, and quite possibly worse than asylum patients did in the early nineteenth century. Indeed, Whitaker argues, modern treatments for the severely mentally ill are just old

medicine in new bottles and we as a society are deluded about their efficacy. Tracing over three centuries of "cures" for madness, Whitaker shows how medical therapies-from "spinning" or "chilling" patients in colonial times to more modern methods of electroshock, lobotomy, and drugs-have been used to silence patients and dull their minds, deepening their suffering and impairing their hope of recovery. Based on exhaustive research culled from old patient medical records, historical accounts, and government documents, this haunting book raises important questions about our obligations to the mad, what it means to be "insane," and what we value most about the human mind.

*Lifting Our Voices* Joyce Octavia Beckett 2008 *Lifting Our Voices* is the only book to explore the dual roles of professional social workers who are also family caregivers and the only collection on caregiving in which the majority of contributors are African American. After discussing the relevant literature, *Lifting Our Voices* vividly and sensitively presents the caregiving experiences of ten professional social workers. Using professional and theoretical knowledge and skills, each contributor draws implications for various levels of social work and human service interventions. These poignant descriptions and analyses recount both the frustrations and barriers of negotiating social service agencies and other institutions and the joys and triumphs of family caregiving. *Lifting Our Voices* frankly discusses how a professional education either

prepares or fails to equip an individual with the skills for successful intervention on behalf of a loved one.

Contributors hail from rich and varied backgrounds, revealing the importance of age, ethnicity, gender, marital status, and gerontological expertise in the practice of family caregiving. These essays explore situations rarely reported on in the literature, such as caregivers and care recipients who represent the lifespan from preschool to retirement. *Lifting Our Voices* graphically describes types of caregiving that are seldom discussed, including simultaneous caregiving to multiple family members and reciprocal and sequential caregiving, thus broadening and refining the very concepts of "caregiving" and "family."

*Food Safety Culture* Frank Yiannas 2008-12-10 Food safety awareness is at an all time high, new and emerging threats to the food supply are being recognized, and consumers are eating more and more meals prepared outside of the home. Accordingly, retail and foodservice establishments, as well as food producers at all levels of the food production chain, have a growing responsibility to ensure that proper food safety and sanitation practices are followed, thereby, safeguarding the health of their guests and customers. Achieving food safety success in this changing

environment requires going beyond traditional training, testing, and inspectional approaches to managing risks. It requires a better understanding of organizational culture and the human dimensions of food safety. To improve the food safety performance of a retail or foodservice establishment, an organization with thousands of employees, or a local community, you must change the way people do things. You must change their behavior. In fact, simply put, food safety equals behavior. When viewed from these lenses, one of the most common contributing causes of food borne disease is unsafe behavior (such as improper hand washing, cross-contamination, or undercooking food). Thus, to improve food safety, we need to better integrate food science with behavioral science and use a systems-based approach to managing food safety risk. The importance of organizational culture, human behavior, and systems thinking is well documented in the

occupational safety and health fields. However, significant contributions to the scientific literature on these topics are noticeably absent in the field of food safety.

Divining Victory: Airpower in the 2006 Israel-Hezbollah War

William M. Arkin 2011-09-16

This is the story of an airpower-dominated campaign, one that was deeply flawed in its design yet impressive in its efficiency. This quick-look study is based upon visits to damaged sites, villages, towns, and cities; discussions with government and military officials; and experience of having evaluated airpower and its effects in Afghanistan, Iraq, and the former Yugoslavia (and previously in Lebanon). Months of follow-up research included exchanges with Israeli, Lebanese, Hezbollah, and US experts. The intent was to develop a timely airpower narrative to enhance professional military education and planning. About the author: William M. Arkin is an independent military analyst,

journalist, and author. He writes the "Early Warning" column for washingtonpost.com (where he previously wrote the "DOT.MIL" column from 1998 to 2003) and is a longtime NBC News military analyst. (Originally published by Air University Press)

### **Fractured Faith** Lina

AbuJamra 2021-09-07 After your faith has fractured, let what takes its place be the real thing . . . at last. Somewhere along the way, the Christianity you knew began to crumble. You began to suspect your faith was misplaced. Disillusionment set in. Churches hurt you. Their people failed you. Christian institutions were exposed as fake. And in it all, God was silent. Is He gone? Or is God really there, waiting for you to find Him instead of the counterfeits? If you're walking this difficult spiritual path, Lina AbuJamra understands you. After experiencing the near

deconstruction of her own faith, Lina had to rebuild something more solid when the faith she once knew let her down. With her diagnostic style that comes from her training as an ER doc, Lina helps you grapple with questions like: Where is God in my pain? Is this how Christians are supposed to act? Why did my story end up this way? Is this the normal Christian life? Why is it so hard for Christians to love? Let Fractured Faith help you find your way back to God. You just might discover that the real God has been waiting for you all along.
