The Ogoni of the Eastern Niger Delta: An Economic, Political and Cultural Analysis from Settlement to the Present

Sonpie Kpone-Tonwe 2021-02-26

The Ogoni of the Eastern Niger Delta are an ancient African community in Southern Nigeria, whose history dates back to BC times. Their history is rich in customs, traditions, economics, politics and culture, which date back to Herodotus, the Greek historian, who wrote about the Silent Trade in West Africa", in the 4th century BC, a story also reported by the Ogoni in their oral tradition. Scholars frequently relate the history of West Africa to the coming of the white man into the region. The Ogoni of the Eastern Niger Delta shows that the colonialists later came to see a lot of innovations by the Ogoni; such as trade, money, industry, agriculture, leadership training, government, law, music, sea travel, war and more. This book is a giant attempt to record and preserve these cultures for future study and development. There is a separate volume containing fieldwork data on almost every subject for researchers to consult.

Problems of Political Philosophy D. D. Raphael 1990-09-04 This is both an introduction and an original contribution to political philosophy. It is not, however, a simple survey of political theories, but also gives the reader an example of philosophical thinking about political ideas.

There Was a Country Chinua Achebe 2012-10-11 From the legendary author of Things Fall Apart—a long-awaited memoir of coming of age in a fragile new nation, and its destruction in a tragic civil war For more than forty years, Chinua Achebe maintained a considered silence on the events of the Nigerian civil war, also known as the Biafran War, of 1967–1970, addressing them only obliquely through his poetry. Decades in the making, There Was a Country is a towering account of one of modern Africa’s most disastrous events, from a writer whose words and courage left an enduring stamp on world literature. A marriage of history and memoir, vivid firsthand observation and decades of research and reflection, There Was a Country is a work whose wisdom and compassion remind us of Chinua Achebe’s place as one of the great literary and moral voices of our age.

Archiving Caribbean Identity John Aarons 2022-06-13 Archiving Caribbean Identity highlights the "Caribbeanization" of archives in the region, considering what those archives could include in the future and exploring the potential for new records in new formats. Interpreting records in the broadest sense, the 15 chapters in this volume explore a wide variety of records that represent new archival interpretations. The book is split into two parts, with the first part focusing on record forms that are not generally considered "archival" in traditional Western practice. The second part explores more "traditional" archival collections

and demonstrates how these collections are analysed and presented from the perspective of Caribbean peoples. As a whole, the volume suggests how colonial records can be repurposed to surface Caribbean narratives. Reflecting on the unique challenges faced by developing countries as they approach their archives, the volume considers how to identify and archive records in the forms and formats that reflect the postcolonial and decolonized Caribbean, how to build an archive of the people that documents contemporary society and reflects Caribbean memory, and how to repurpose the colonial archives so that they assist the Caribbean in reclaiming its history. Archiving Caribbean Identity demonstrates how non-textual cultural traces function as archival records and how folk-centred perspectives disrupt conventional understandings of records. The book should thus be of interest to academics and students engaged in the study of archives, memory, culture, history, sociology, and the colonial and postcolonial experience.

Oduduwa - King of the Edos Jude Idada 2014-02-12 ODUDUWA, KING OF THE EDOS is a play which explores the true identity of an ancient African King who was believed amongst numerous competing historical accounts to have come down from the heavens (skies) to found the present day Yoruba people of South Western Nigeria. It attempts to draw congruence between mythical accounts of his origin which are found in the oral traditions of the Edos of present day Mid-Western Nigeria, those of the Yorubas of Ile-Ife in particular, and Western Nigeria in general, while imagining an explanation as to the divergence in their accounts. It seeks to answer the questions: was Oduduwa a god that ruled men, the first creation of the supreme God, an exiled Edo prince or was he a mere mortal whose leadership qualities became legendary and thus exalted

him to the status of the progenitor of the Yorubas? Set in the kingdoms of Igodomigodo and Ile-Ife, it journeys across time into the more recent pre-colonial Benin city and Ile-Ife, while using well rounded characters, loftily crafted language, deep cultural mores, scintillating music, dance, fast paced action and intrigue in bringing to life a captivating period in the history of the Yorubas and Edos.

Ifenne Jill Okpalugo-Omali 2017-06-06 Nkolika is just a teen in Nigeria when her life starts to change. Like most females in her African nation, her rights are very limited, and decisions are made for her. One such choice is female mutilation. Before she becomes the powerful woman she would grow to be, Nkolika sold oranges. As an eyewitness of the horrors bestowed upon females by savage traditions, haunted by the memories of lost friends, and personal trauma, she fights back. Not wilting beneath a patriarchal society, through the internet, peaceful demonstrations, nongovernmental organizations and the press, she becomes an influential figure in the fight for feminism. To resolve gender inequality issues, she battles the repetitive indoctrination that females are inferior to men. She remains a self-esteem dynamo who revitalizes female confidence. Not only does Nkolika thrive in her male-dominated society, she teaches other women to do so.

The imagination soars and the music ripples across the ages. The scholar, teacher and researcher Nathan Suhr-Systma has remarked upon the quality of the writing and the scope of its ambition while Rotimi Babatunde and Benson Eluma have identified the work as embodying remarkable effort.

Oil Wealth and Insurgency in Nigeria Omolade Adunbi 2015-07-29

Omolade Adunbi investigates the myths behind competing claims to oil wealth in Nigeria's Niger Delta. Looking at ownership of natural resources, oil extraction practices, government control over oil resources, and discourse about oil, Adunbi shows how symbolic claims have created an "oil citizenship." He explores the ways NGOs, militant groups, and community organizers invoke an ancestral promise to defend land disputes, justify disruptive actions, or organize against oil corporations. Policies to control the abundant resources have increased contestations over wealth, transformed the relationship of people to their environment, and produced unique forms of power, governance, and belonging.

The Intestines of the State Nicolas Argenti 2008-09-15 The young people of the Cameroon Grassfields have been subject to a long history of violence and political marginalization. For centuries the main victims of the slave trade, they became prime targets for forced labor campaigns under a series of colonial rulers. Today's youth remain at the bottom of the fiercely hierarchical and polarized societies of the Grassfields, and it

is their response to centuries of exploitation that Nicolas Argenti takes up in this absorbing and original book. Beginning his study with a political analysis of youth in the Grassfields from the eighteenth century to the present, Argenti pays special attention to the repeated violent revolts staged by young victims of political oppression. He then combines this history with extensive ethnographic fieldwork in the Oku chiefdom, discovering that the specter of past violence lives on in the masked dance performances that have earned intense devotion from today's youth. Argenti contends that by evoking the imagery of past cataclysmic events, these masquerades allow young Oku men and women to address the inequities they face in their relations with elders and state authorities today.

Herero Heroes Jan-Bart Gewald 1999 This text describes the manner in which the Herero of Namibia struggled to maintain control over their own freedom in the face of advancing German colonial control. The Herero-German war led to the destruction of Herero society in all of its pre-war facets. Yet Herero society re-emerged, re-organizing itself around the structures and beliefs of the German colonial army and Rhenish missionary activity. Taking advantage of the South African invasion of Namibia in World War I the Herero established themselves in areas of their own choosing. The effective re-occupation of land by the Herero forced the new colonial state, anxious to maintain peace and cut costs, to come to terms with the existence of Herero society. The study ends in 1923 when the death and funeral of Samuel Maherero - first paramount of the Herero and then resistance leader - the catalyst that brought the disparate groups of Herero together to establish a single unitary Herero identity.

Civilizing Security Ian Loader 2007-04-19 Security has become a defining feature of contemporary public discourse, permeating the so-called 'war on terror', problems of everyday crime and disorder, the reconstruction

of 'weak' or 'failed' states and the dramatic renaissance of the private security industry. But what does it mean for individuals to be secure, and what is the relationship between security and the practices of the modern state? In this timely and important book, Ian Loader and Neil Walker outline and defend the view that security remains a valuable public good. They argue that the state is indispensable to the task of fostering and sustaining liveable political communities in the contemporary world and thus pivotal to the project of civilizing security. This is a major contribution by two leading scholars in the field and will be of interest to anyone wishing to deepen their understanding of one of the most significant and pressing issues of our times.

The Melancholy of Race Anne Anlin Cheng 2001 Cheng proposes that racial identification is itself already a melancholic act--a social category that is imaginatively supported through a dynamic of loss and compensation, by which the racial other is at once rejected and retained. Using psychoanalytic theories on mourning and melancholia as inroads into her subject, Cheng offers a closely observed and carefully reasoned account of the minority experience as expressed in works of art by, and about, Asian-Americans and African-Americans. She argues that the racial minority and dominant American culture both suffer from racial melancholia and that this insight is crucial to a productive reimagining of progressive politics.
