**Raja Serfoji II** Savithri Preetha Nair 2014-03-14 In the early nineteenth century, the south Indian kingdom of Tanjore, which had come under the control of the East India Company, flourished as a 'centre' of enlightenment. This book traces the contours of the Tanjore enlightenment, which produced a knowledge that was at once modern and deeply rooted in the indigenous tradition. The chief protagonist of this first ever full-length study on Tanjore at the turn of the nineteenth century is Raja Serfoji II (r. 1798–1832), in whose world science and God coexisted comfortably. Tanjore at this time was a thriving contact-zone, linked to several centres through extensive local and global networks. Its court attracted a great number of visitors, including Christian missionaries, high-ranking Company officials, princely contemporaries, naturalists, and medical practitioners. Dwelling on the locatedness of science and enlightenment modernity in the context of the colonial periphery, the book describes how the Raja deployed certain 'vectors of assemblage' — an array of practices, instruments, theories and people, including his vast collection of manuscripts, books and scientific instruments, a Devanagari printing press, a menagerie, health establishments and a large retinue of trained experts and artists — to invent Tanjore as a contemporary 'centre'. Shunning reductionist and diffusionist explanations of the transmission of Western science in colonial settings, the study uses hitherto unexplored archival sources to reconstruct the Tanjore enlightenment as the outcome of globally situated cross-cultural exchanges. It celebrates the openness and confidence with which European science was engaged with, assimilated, translated and reinvented in a 'contact-zone' located in the colonial backwaters of south India. The book will be of interest to historians, sociologists and those interested in history of science and medicine, anthropologists, cultural studies scholars, as well as the general reader.

**Baba Padmanji** Deepra Dandekar 2020-12-23 This book is a critical biography of Baba Padmanji (1831-1906), a firebrand native Christian missionary, ideologue, and litterateur from 19th-century Bombay Presidency. Though Padmanji was well-known, and a very influential figure among Christian converts, his contributions have received inadequate attention from the perspective of 'social reform' — an intellectual domain dominated by offshoots of the Brahmo Samaj movement, like the Prarthana Samaj in Bombay. This book constitutes an in-depth analysis of Padmanji's relationships with questions of reform, education, modernity, feminism, and religion, that had wide-ranging repercussions on the intellectual horizon of 19th-century India. It presents Padmanji's integrated writing persona and identity as a revolutionary pathfinder of his times who amalgamated and blended vernacular ideas of Christianity together with early feminism, modernity, and incipient nationalism. Drawing on a variety of primary and secondary sources, this unique book will be of great interest for area studies scholars (especially Maharashtra), and to researchers of modern India, engaged with the history of colonialism and missions, religion, global Christianity, South Asian intellectual history, and literature.

**The Foreign Political Press in Nineteenth-Century London** Constance Bantman 2017-12-14 In a period of turmoil when European and international politics were in constant reshaping, immigrants and political exiles living in London set up periodicals which contributed actively to national and international political debates. Reflecting an interdisciplinary and international discussion, this book offers a rare long-term specialist perspective into the cosmopolitan and multilingual world of the foreign political press in London, with an emphasis on periodicals published in European languages. It furthers current research into political exile, the role of print culture and personal networks as intercultural agents and the dynamics of transnational

political and cultural exchange in global capitals. Individual chapters deal with Brazilian, French, German, Indian, Italian, Portuguese, Spanish, Spanish American, and Russian periodicals. Overarching themes include a historical survey of foreign political groups present in London throughout the long 19th century and the causes and movements they championed; analyses of the press in local and transnational contexts; and a focus on its actors and on the material conditions in which this press was created and disseminated. *The Foreign Political Press in Nineteenth-Century London* is a useful volume for students and academics with an interest in 19th-century politics or the history of the press.

**Indian Liberalism between Nation and Empire** Elena Valdameri 2022-03-10 This book analyses the political thought and practice of Gopal Krishna Gokhale (1866–1915), preeminent liberal leader of the Indian National Congress who was able to give a 'global voice' to the Indian cause. Using liberalism, nationalism, cosmopolitanism and citizenship as the four main thematic foci, the book illuminates the entanglement of Gopal Krishna Gokhale's political ideas and action with broader social, political and cultural developments within and beyond the Indian national frame. The author analyses Gokhale's thinking on a range of issues such as nationhood, education, citizenship, modernity, caste, social service, cosmopolitanism and the 'women's question,' which historians have either overlooked or inserted in a rigid nation-bounded historical narrative. The book provides new enriching dimensions to the understanding of Gokhale, whose ideas remain relevant in contemporary India. A new biography of Gokhale that brings into consideration current questions within historiographical debates, this book is a timely and welcome addition to the fields of intellectual history, the history of political thought, Colonial history and Indian and South Asian history.

**Anti-Imperial Metropolis** Michael Goebel 2015-08-25 This book traces the spread of a global anti-imperialism from the vantage point of Paris between the two World Wars, where countless future leaders of Third World countries spent formative stints. Exploring the local social context in which these emergent activists moved, the study delves into assassination plots allegedly hatched by Chinese students, demonstrations by Latin American nationalists, and the everyday lives of Algerian, Senegalese and Vietnamese workers. On the basis of police reports and other primary sources, the book foregrounds the role of migration and interaction as driving forces enabling challenges to the imperial world order, weaving together the stories of peoples of three continents. Drawing on the scholarship of twentieth-century imperial, international and global history as well as migration, race and ethnicity in France, it ultimately proposes a new understanding of the roots of the Third World idea.

**Amritsar 1919** Kim A. Wagner 2019-03-26 "Chronicles the run up to Jallianwala Bagh with spellbinding . . . focus. . . Mr. Wagner's achievement is one of balance . . . and, above, all, of perspective." (The Wall Street Journal) The Amritsar Massacre of 1919 was a seminal moment in the history of the British Empire, yet it remains poorly understood. In this dramatic account, Kim A. Wagner details the perspectives of ordinary people and argues that General Dyer's order to open fire at Jallianwala Bagh was an act of fear. Situating the massacre within the "deep" context of British colonial mentality and the local dynamics of Indian nationalism, Wagner provides a genuinely nuanced approach to the bloody history of the British Empire. "Mr Wagner argues his case fluently and rigorously in this excellent book." —The Economist "Written with a humane commitment to the truth that will impress." —The Times "Skillfully maps a tale of growing tensions, precipitate action, and troubled aftermath." —The Telegraph "A compelling account"

—Financial Times “Wagner's postmortem of an imperial disaster should be widely read.” —R.A. Callahan, emeritus, Choice “The fullest, and by far the most authoritative, account of the causes and course of the Jallianwala massacre in any language.” —Nigel Collett, author of *The Butcher of Amritsar* “Mining a variety of sources – diaries, memoirs and court testimonies—[Wagner] uncovers fresh perspectives and examines the relation between colonial panic and state brutality with sophistication, sincerity and style.” —Santanu Das, author of *India, Empire, and First World War Culture* “Analytically sharp but gripping to read, the book is a page-turner”—Barbara D. Metcalf, co-author of *A Concise History of India* “An important book.” —Yasmin Khan, author of *The Partition*

**Shyamji Krishnavarma** Harald Fischer-Tiné 2015-10-15 This book is the first critical biography on Shyamji Krishnavarma — scholar, journalist and national revolutionary who lived in exile outside India from 1897 to 1930. His ideas were crucial in the creation of an extremist wing of anti-imperial nationalism. The work delves into a fascinating range of issues such as colonialism and knowledge, political violence, cosmopolitanism, and diaspora. Lucidly written, and with an insightful analysis of Krishnavarma's life and times, this will greatly interest scholars and researchers of modern Indian history, politics, the nationalist movement, as well as the informed lay reader.

*Asia and the Great War* Xu Guoqi 2016-11-10 There is no single volume that shines a light on Asia's collective involvement in the First World War, and the impact that war had on its societies. Moreover, no volume in any language explores the experiences Asian countries shared as they became embroiled, with divergent results, in the war and its repercussions. *Asia and the Great War* moves beyond the national or even international level by presenting a 'shared' history from non-national and transnational perspectives. Asian involvements make the Great War not only a true 'world' war but also a 'great' war. The war generated forces that would transform Asia both internally and externally. Asian involvement in the First World War is a unique chapter in both Asian and world history, with Asian participation transforming the meaning and implications of the broader conflict. *Asia and the Great War* also takes steps to recover memories of the war and re-evaluate the war in its Asian contexts. Asia's part in the war and the part the war played in the collective development of Asia represent the first steps of the long journey to full national independence and international recognition. This volume aims to bring the Great War more fully into Asian history and the people of Asia into the international history of the war, in the hope that the shared history could lay the groundwork for a shared future.

*Colonial exchanges* Burke Hendrix 2017-06-20 Recent scholarship in political thought has closely examined the relationship between European political ideas and colonialism, particularly the ways in which canonical thinkers supported or opposed colonial practices. But little attention has been given to the engagement of colonized political and intellectual actors with European ideas. The essays in this volume demonstrate that a full reckoning of colonialism's effects requires attention to the ways in which colonized intellectuals reacted to, adopted, and transformed these ideas, and to the political projects that their reactions helped to shape. Across nine chapters, a mix of political theorists and intellectual historians grapple with specific thinkers and contexts to show in detail the unpredictable, complex and sometimes paradoxical impact of European ideas in an array of colonial settings.

*Imperial Emotions* Jane Lydon 2019-10-17 Examines the politicisation of empathy across the British empire during the nineteenth century and traces its legacies into the present.

The work delves into a fascinating range of issues such as colonialism and knowledge, political violence, cosmopolitanism, and diaspora. **Spreading Protestant Modernity** Harald Fischer-Tiné 2020-11-30 A half century after its founding in London in 1844, the Young Men's

Christian Association (YMCA) became the first NGO to effectively push a modernization agenda around the globe. Soon followed by a sister organization, the Young Women's Christian Association (YWCA), founded in 1855, the Y movement defined its global mission in 1889. Although their agendas have been characterized as predominantly religious, both the YMCA and YWCA were also known for their new vision of a global civil society and became major agents in the worldwide dissemination of modern “Western” bodies of knowledge. The YMCA's and YWCA's “secular” social work was partly rooted in the Anglo-American notions of the “social gospel” that became popular during the 1890s. The Christian lay organizations' vision of a “Protestant Modernity” increasingly globalized their “secular” social work that transformed notions of science, humanitarianism, sports, urban citizenship, agriculture, and gender relations. *Spreading Protestant Modernity* shows how the YMCA and YWCA became crucial in circulating various forms of knowledge and practices that were related to this vision, and how their work was co-opted by governments and rival NGOs eager to achieve similar ends. The studies assembled in this collection explore the influence of the YMCA's and YWCA's work on highly diverse societies in South, Southeast, and East Asia; North America; Africa; and Eastern Europe. Focusing on two of the most prominent representative groups within the Protestant youth, social service, and missionary societies (the so-called “Protestant International”), the book provides new insights into the evolution of global civil society in the nineteenth and twentieth centuries, and its multifarious, seemingly secular, legacies for today's world. *Spreading Protestant Modernity* offers a compelling read for those interested in global history, the history of colonialism and decolonization, the history of Protestant internationalism, and the trajectories of global civil society. While each study is based on rigorous scholarship, the discussion and analyses are in accessible language that allows everyone from undergraduate students to advanced academics to appreciate the Y movement's role in social transformations across the world.

**Muslim Society and the Western Indian Ocean** Edward Simpson 2007-01-24 Based on substantial ethnographic, textual and archival research, this interesting book offers a new perspective on the anthropology of the western Indian Ocean. Writing in a clear, engaging style, and covering an impressive range of theoretical terrain, Simpson critically explores the relationships between people and things that give life to the region and drive shifting patterns of social change among Muslims in the highly-politicized state of Gujarat. Scholars of the Indian Ocean, Muslim society in South Asia, and Hindu nationalism, as well as anthropologists in general, will find this a fascinating read and a major contribution to research in this area.

**World Literature for the Wretched of the Earth** J. Daniel Elam 2020-12-01 *World Literature for the Wretched of the Earth* recovers a genealogy of anticolonial thought that advocated collective inexpertise, unknowing, and unrecognizability. Early-twentieth-century anticolonial thinkers endeavored to imagine a world emancipated from colonial rule, but it was a world they knew they would likely not live to see. Written in exile, in abjection, or in the face of death, anticolonial thought could not afford to base its politics on the hope of eventual success, mastery, or national sovereignty. J. Daniel Elam shows how anticolonial thinkers theorized inconsequential practices of egalitarianism in the service of an impossibility: a world without colonialism. Framed by a suggestive reading of the surprising affinities between Frantz Fanon's political writings and Erich Auerbach's philological project, *World Literature for the Wretched of the Earth* foregrounds anticolonial theories of reading and critique in the writing of Lala Har Dayal, B. R. Ambedkar, M. K. Gandhi, and Bhagat Singh. These anticolonial activists theorized reading not as a way to cultivate mastery and expertise but as a way, rather, to disavow mastery altogether. To become or remain an inexpert reader, divesting oneself of authorial claims, was to fundamentally challenge the logic of the British Empire and European fascism, which prized self-mastery, authority, and national sovereignty. Bringing together the histories of comparative literature and anticolonial thought, Elam demonstrates how these early-twentieth-century theories of reading force us to reconsider the commitments of humanistic critique and egalitarian politics in the still-colonial present.

**M. N. Roy** Kris Manjapra 2020-11-30 This is a work of South Asian intellectual history written from a transnational perspective and based on the life and work of M.N. Roy, one of India's most formidable Marxist intellectuals. Swadeshi revolutionary, co-founder of the Mexican Communist Party, member of the Communist International Presidium, and a major force in the rise of Indian communism, M.N. Roy was a colonial cosmopolitan icon of the interwar years. Exploring the

intellectual production of this important thinker, this book traces the historical context of his ideas from 19th-century Bengal to Weimar Germany, through the tumultuous period of world politics in the 1930s and 1940s, and on to post-Independence India. In this book the author makes a number of valuable theoretical contributions. He argues for the importance of conceiving the 'deterritorial' zones of thought and action through which Indian anti-colonial political thought operated, and advances a new periodisation for Swadeshi on this basis. He also argues against viewing 'international communism' of the 1920s as a single monolith by highlighting the fractures and contestations that influenced colonial politics worldwide. A fresh and insightful perspective on the history of India in the interwar years, this book will be of great interest to scholars and students of the modern history of South and East Asia, America and Europe, and to those interested in anti-colonial struggles, Communist politics and trajectories of Marxist thought in the 20th century.

*Empire* Niall Ferguson 2008-03-17 A bestselling historian shows how the British Empire created the modern world, in a book lauded as "a rattling good tale" (Wall Street Journal) and "popular history at its best" (Washington Post) The British Empire was the largest in all history: the nearest thing to global domination ever achieved. The world we know today is in large measure the product of Britain's Age of Empire. The global spread of capitalism, telecommunications, the English language, and institutions of representative government -- all these can be traced back to the extraordinary expansion of Britain's economy, population and culture from the seventeenth century until the mid-twentieth. On a vast and vividly colored canvas, *Empire* shows how the British Empire acted as midwife to modernity. Displaying the originality and rigor that have made Niall Ferguson one of the world's foremost historians, *Empire* is a dazzling tour de force -- a remarkable reappraisal of the prizes and pitfalls of global empire.

*Cricket Country* Prashant Kidambi 2019 The extraordinary story of the first 'All India' national cricket tour of Great Britain and Ireland - and how the idea of India as a nation took shape on the cricket pitch.

*Black London* Marc Matera 2015-05-05 This vibrant history of London in the twentieth century reveals the city as a key site in the development of black internationalism and anticolonialism. Marc Matera shows the significant contributions of people of African descent to London's rich social and cultural history, masterfully weaving together the stories of many famous historical figures and presenting their quests for personal, professional, and political recognition against the backdrop of a declining British Empire. A groundbreaking work of intellectual history, *Black London* will appeal to scholars and students in a variety of areas, including postcolonial history, the history of the African diaspora, urban studies, cultural studies, British studies, world history, black studies, and feminist studies.

*Shyamji Krishnavarma* Harald Fischer-Tiné 2014 This book is a critical biography on Shyamji Krishnavarma (1857-1930) -- an Indian scholar and national revolutionary. His association with traditionalist intellectuals, Orientalists, Irish nationalists, anarchists, and Victorian liberalism led to the creation of a violent wing of anti-imperial nationalism. It focuses on the themes of colonial knowledge, political violence and cosmopolitanism.

*South Asian Migrations in Global History* Neilesh Bose 2020-12-10 This collection explores how South Asian migrations in modern history have shaped key aspects of globalization since the 1830s. Including original research from colonial India, Fiji, Mexico, South Africa, North America and the Middle East, the essays explore indentured labour and its legacies, law as a site of regulation and historical biography. Including recent scholarship on the legacy of issues such as consent, sovereignty and skilled/unskilled labour distinctions from the history of indentured labour migrations, this volume brings together a range of historical changes that can only be understood by studying South Asian migrants within a globalized world system. Centering south Asian migrations as a site of analysis in global history, the contributors offer a lens into the ongoing regulation of labourers after the abolition of slavery that intersect with histories in the Global North and Global South. The use of historical biography showcases experiences from below, and showcases a world history outside empire and nation.

*Benoy Kumar Sarkar* Satadru Sen 2015-05-01 This book explores the life and times of the pioneering Indian sociologist Benoy Kumar Sarkar. It locates him simultaneously in the intellectual history of India and the political history of the world in the twentieth century. It focuses on the development and implications of Sarkar's thinking on race, gender, governance and nationhood in a changing context. A penetrating portrait

*Vidyasagar* Brian A. Hatcher 2014-08-07 This book offers a new interpretation of the life and legacy of the Indian reformer and intellectual, Ishvarchandra Vidyasagar (1820-91). Drawing upon autobiography, biography, secondary criticism and a range of Vidyasagar's original writings in Bengali, the book interrogates the role of history, memory and controversy, and emphasises the key challenge of pinning down the identity of an enigmatic and multi-faceted figure. By examining lesser-known works of Vidyasagar (including several pseudonymous and posthumous works) alongside the evidence of his public career, the author calls attention to the colonial transformation of intellectual and social life, the nature of life writing, the limits of standard biographies and the problem of modern Indian identity as such. Based on decades of research and an original perspective, this book will be especially useful to scholars of modern Indian history, biographical studies, comparative literature and those interested in Bengal.

*Empires of Panic* Robert Peckham 2015-01-01 *Empires of Panic* is the first book to explore how panics have been historically produced, defined, and managed across different colonial, imperial, and post-imperial settings—from early nineteenth-century East Asia to twenty-first-century America. Contributors consider panic in relation to colonial anxieties, rumors, indigenous resistance, and crises, particularly in relation to epidemic disease. How did Western government agencies, policymakers, planners, and other authorities understand, deal with, and neutralize panics? What role did evolving technologies of communication play in the amplification of local panics into global events? Engaging with these questions, the book challenges conventional histories to show how intensifying processes of intelligence gathering did not consolidate empire, but rather served to produce critical uncertainties—the uneven terrain of imperial panic. Robert Peckham is associate professor in the Department of History and co-director of the Centre for the Humanities and Medicine at the University of Hong Kong. "Charting the relays of rumor and knowledge that stoke colonial fears of disease, disorder, and disaster, *Empires of Panic* offers timely and cautionary insight into how viscerally epidemics inflame imperial anxieties, and how words and their communication over new technologies accelerate panic, rally government intervention, and unsettle and entrench the exercise of global power. Relevant a century ago and even more so today." — Nayan Shah, University of Southern California; author of *Contagious Divides: Epidemics and Race in San Francisco's Chinatown* "Empires generated anxiety as much as ambition. This fine study focuses on anxieties generated by disease. It is the first book of its kind to track shifting forms of panic through different geopolitical regimes and imperial formations over the course of two centuries. Working across medical and imperial histories, it is a major contribution to both." — Andrew S. Thompson, University of Exeter; author of *Empire and Globalisation: Networks of People, Goods and Capital in the British World, c. 1850-1914* (with Gary B. Magee)

*Anarchism, 1914-18* Ruth Kinna 2017-06-08 *Anarchism 1914-18* is the first systematic analysis of anarchist responses to the First World War. It examines the interventionist debate between Peter Kropotkin and Errico Malatesta which split the anarchist movement in 1914 and provides a historical and conceptual analysis of debates conducted in European and American movements about class, nationalism, internationalism, militarism, pacifism and cultural resistance. Contributions discuss the justness of war, non-violence and pacifism, anti-colonialism, pro-feminist perspectives on war and the potency of myths about the war and revolution for the reframing of radical politics in the 1920s and beyond. Divisions about the war and the experience of being caught on the wrong side of the Bolshevik Revolution encouraged anarchists to reaffirm their deeply-held rejection of vanguard socialism and develop new strategies that drew on a plethora of anti-war activities.

*Nehru's 97 Major Blunders* Rajnikant Puranik 2016-07 Those who do not learn from history are doomed to repeat it.--George Santayana But for a series of major blunders by Nehru across the spectrum--it would not be an exaggeration to say that he blundered comprehensively--India would have been on a rapidly ascending path to becoming a shining, prosperous, first-world country by the end of his term, and would surely have become so by early 1980s--provided, of course, Nehru's dynasty had not followed him to power. Sadly, the Nehru era laid the foundations of India's poverty and misery, condemning it to be forever a developing, third-rate, third-world country. By chronicling those blunders, this book

highlights THE FACTS BEHIND THE FACADE. This 'Revised, Enlarged & Unabridged, June-2018 Edition' of the book comprises (a) 123 Major Blunders compared to 97 of the first Digital Edition of July 2016; (b) over twice the matter, and number of words; and (c) exhaustive citations and complete bibliography. Blunders is used in this book as a general term to also include failures, neglect, wrong policies, bad decisions, despicable and disgraceful acts, usurping undeserved posts, etc. It is not the intention of this book to be critical of Nehru, but historical facts, that have often been distorted or glossed over or suppressed must be known widely, lest the mistakes be repeated, and so that India has a brighter future.

*Gandhi Before India* Ramachandra Guha 2014-04-15 Here is the first volume of a magisterial biography of Mohandas Gandhi that gives us the most illuminating portrait we have had of the life, the work and the historical context of one of the most abidingly influential—and controversial—men in modern history. Ramachandra Guha—hailed by Time as “Indian democracy’s preeminent chronicler”—takes us from Gandhi’s birth in 1869 through his upbringing in Gujarat, his two years as a student in London and his two decades as a lawyer and community organizer in South Africa. Guha has uncovered myriad previously untapped documents, including private papers of Gandhi’s contemporaries and co-workers; contemporary newspapers and court documents; the writings of Gandhi’s children; and secret files kept by British Empire functionaries. Using this wealth of material in an exuberant, brilliantly nuanced and detailed narrative, Guha describes the social, political and personal worlds inside of which Gandhi began the journey that would earn him the honorific Mahatma: “Great Soul.” And, more clearly than ever before, he elucidates how Gandhi’s work in South Africa—far from being a mere prelude to his accomplishments in India—was profoundly influential in his evolution as a family man, political thinker, social reformer and, ultimately, beloved leader. In 1893, when Gandhi set sail for South Africa, he was a twenty-three-year-old lawyer who had failed to establish himself in India. In this remarkable biography, the author makes clear the fundamental ways in which Gandhi’s ideas were shaped before his return to India in 1915. It was during his years in England and South Africa, Guha shows us, that Gandhi came to understand the nature of imperialism and racism; and in South Africa that he forged the philosophy and techniques that would undermine and eventually overthrow the British Raj. *Gandhi Before India* gives us equally vivid portraits of the man and the world he lived in: a world of sharp contrasts among the coastal culture of his birthplace, High Victorian London, and colonial South Africa. It explores in abundant detail Gandhi’s experiments with dissident cults such as the Tolstoyans; his friendships with radical Jews, heterodox Christians and devout Muslims; his enmities and rivalries; and his often overlooked failures as a husband and father. It tells the dramatic, profoundly moving story of how Gandhi inspired the devotion of thousands of followers in South Africa as he mobilized a cross-class and inter-religious coalition, pledged to non-violence in their battle against a brutally racist regime. Researched with unequalled depth and breadth, and written with extraordinary grace and clarity, *Gandhi Before India* is, on every level, fully commensurate with its subject. It will radically alter our understanding and appreciation of twentieth-century India’s greatest man.

**Colonial Terror** Deana Heath 2021-03-23 Focusing on India between the early nineteenth century and the First World War, *Colonial Terror* explores the centrality of the torture of Indian bodies to the law-preserving violence of colonial rule and some of the ways in which extraordinary violence was embedded in the ordinary operation of colonial states. Although enacted largely by Indians on Indian bodies, particularly by subaltern members of the police, the book argues that torture was facilitated, systematized, and ultimately sanctioned by first the East India Company and then the Raj because it benefitted the colonial regime, since rendering the police a source of terror played a key role in the construction and maintenance of state sovereignty. Drawing upon the work of both Giorgio Agamben and Michel Foucault, *Colonial Terror* contends, furthermore, that it is only possible to understand the terrorizing nature of the colonial police in India by viewing colonial India as a 'regime of exception' in which two different forms of exceptionality were in operation - one wrought through the exclusion of particular groups or segments of the Indian population from the law and the other by petty sovereigns in their enactment of illegal violence in the operation of the law. It was in such fertile ground, in

which colonial subjects were both included within the domain of colonial law while also being abandoned by it, that torture was able to flourish.

**The United States and South Asia from the Age of Empire to Decolonization** Harald Fischer-Tiné 2022-11 The contributions assembled in this volume present cutting-edge research that examines the network of Indo-American interconnections over a wider time frame. The case studies stretch into the early decades of the American republic hinting at a longer history of mutual influence and exchange, beyond the registers of 'the American century' of globalization. By bringing together academics working across disciplines ranging from history to cultural and literary studies, comparative religion, political science and sociology, this volume thus foregrounds and historicizes the complex, multi-sited, polyvalent nature of the Indo-US encounter. At the same time, the book explores the possibilities of methodologically engaging with established categories—such as the nation, the imperial and Empire—and tests alternative typologies to better understand this encounter. Taken together, our authors reconstruct the myriad ways in which Americans and Indians have engaged with each other through trade, diplomacy, intellectual comradeship, missionary evangelism and revolutionary fervor.

**Publics, Politics and Participation** Seteney Shami 2009 Though it is rarely explicitly articulated, many believe that there is no "public" in the Middle East. Scholarship on the Middle East and North Africa almost always engages with politics—a prominent focus of this region—yet the assumed absence of public spaces and fora has led many to think that debate, consensus, and concerted social action are antithetical to the cultural, religious, and national heritage of the region. It is a mistake to exclude the public dimension from the study of processes in this region. Recent studies have demonstrated not only the critical importance of the public in everyday practices of the MENA region, but they have also shown how the term and notion of the public sphere can be used productively to advance understandings of collective life. The first section of this volume offers alternative conceptions of the public sphere through rich and innovative theoretical analysis. Philosophical investigations focus on the role of collective action, the relationship between nationalism and democracy, and the notions of the public employed by socioreligious movements. The second section addresses a wide range of counter-hegemonic discourses and practices that enable the public sphere, such as memoirs, testimonies, strategies of surveillance, the Tehran bazaar, and the movements of migratory workers. The third section provides empirical accounts of the way in which mutual communication through technology has vitally expanded the notion of the public in the MENA region. In conclusion, conflict and resistance are shown to be generative forces in public discourse and debate and in the production of national publics.

**Anxieties, Fear and Panic in Colonial Settings** Harald Fischer-Tiné 2017-01-23 This book argues that the history of colonial empires has been shaped to a considerable extent by negative emotions such as anxiety, fear and embarrassment as well as by the regular occurrence of panics. The case studies it assembles examine the various ways in which panics and anxieties were generated in imperial situations and how they shook up the dynamics between seemingly all-powerful colonizers and the apparently defenceless colonized. Drawing from examples of the British, Dutch and German colonial experience, the volume sketches out some of the main areas (such as disease, native 'savagery' or sexual transgression) that generated panics or created anxieties in colonial settings and analyses the most common varieties of practical, discursive and epistemic strategies adopted by the colonisers to curb the perceived threats.

*A History of Modern India* Ishita Banerjee-Dube 2014-10-27 This book provides an interpretive and comprehensive account of the history of India between the eighteenth and twentieth centuries, a crucial epoch characterized by colonialism, nationalism and the emergence of the independent Indian Union. It explores significant historiographical debates concerning the period while highlighting important new issues, especially those of gender, ecology, caste, and labour. The work combines an analysis of colonial and independent India in order to underscore ideologies, policies, and processes that shaped the colonial state and continue to mould the Indian nation.

**The Popular Front and the Global Circulation of Marxism through Calcutta, 1920s-1970s** Prasanta Dhar 2022-11-29 This book examines the global circulation of Marxism seen from one of its most highly charged sites: Calcutta in India. Building on but also revising existing approaches to global intellectual history, the book presents the circulation of Marxism through Calcutta as a historically-sited problem of

mass mediation. Using tools from media studies, the book explores the way that Marxism was presented to the public, the technologies used, and the meanings of Marxism in twentieth-century Calcutta. Demonstrating how the Popular Front was split between the so-called 'people's group' and those whom were called 'intellectuals', the book argues that the people's group generally identified themselves as Marxists and preferred audio-visual media such as theatre, while the so-called intellectuals privileged academic rigour and print media, usually referring to themselves as Marxians. Thus, the author reveals a polyphony of Marxisms in the Popular Front. Tracing Marxism back to the Bengal Renaissance and the Swadeshi and Naxal movements, this book shows how debate around the meaning of 'Marxism' continued throughout the 1970s in Calcutta, and eventually engendered the historiographical movement that has come to be known as Subaltern Studies.

**Colonial Switzerland** P. Purtschert 2015-05-26 States without former colonies, it has been argued, were intensely involved in colonial practices. This anthology looks at Switzerland, which, by its very strong economic involvements with colonialism, its doctrine of neutrality, and its transnationally entangled scientific community, constitutes a perfect case in point.

**Comrades against Imperialism** Michele L. Louro 2018-03 Examines the emergence of anti-imperialist internationalism during the interwar years from the perspective of India's first Prime Minister, Jawaharlal Nehru.

**Margaret Sanger: an autobiography** Margaret Sanger 2022-05-28 This autobiography tells of Sanger, a pioneer in the struggle for birth control as a basic human right and the founder of the International Planned Parenthood Federation. Sanger is a nurse, who has witnessed first-hand the devastating effects of unwanted pregnancy, triumphed over arrest, indictment, and exile. Her autobiography is a classic of women's studies.
